49. *Clause 30.*—We have limited the range of this clause so as (*1*) to confine the exemption to leases of raiyati holdings and (*2*) to secure the application in all cases of sub-clause (*3*) of clause 29, as to the investment of a premium or fine taken on a lease.

50. *Clause 31.*—This clause is new. It prohibits the sale of a settled estate or any part thereof, during the life of a tenant for life, in execution of a decree; but provides for the appointment of a Receiver to recover the sum decreed. We consider the clause to be desirable in order to restrain, so far as is practicable, the wasting of an estate by a tenant for life. It leaves untouched the right of a landholder to bring a patni tenure to sale under the Bengal Patni Taluks Regulation, 1819.

51. *Clause 32.*—[illegible] inserted words in sub-clause (*2*) to secure that, when an estate is sol[illegible]nant for life, the resulting surplus should be paid to him. In such a ca[illegible]d be unfair that the surplus should be invested in immoveable property, to be added to the settlement, in addition to requiring that the property which the tenant has purchased should remain subject to the settlement.

52. *Sub-clause* (*3*) is new. Its object is to prevent *benami* purchases by a tenant for life.

53. *Clause 33.*—We have altered this clause so as to make it clear that, when arr[illegible]ears of revenue accrue in respect of part only of a settled estate, that part only may be attached by the Collector or dealt with by the Court of Wards.

54. We have altered sub-clause (*3*) so as to authorise, instead of to compel, the Court of Wards to retain charge of an estate until the death of the tenant for life and the attainment of majority by the next holder.

55. *Clause 36.*—We have added a sub-clause authorizing the Local Government to make rules as to the payment to trustees, out of trust money, of expenses properly incurred by them and remuneration for their services.

56. *Clause 37* is new. It declares that the provisions of the Court of Wards Act, 1879, so far as they are not inconsistent with the terms of settlements duly made under the Bill, shall be applicable to settled estates. The object of the clause is to make it clear that the Court of Wards may take charge of a settled estate if, for example, the holder of the estate has been adjudged by a Civil Court to be of unsound mind and incapable of managing his affairs and the settlement contains nothing to oust the jurisdiction of the Court of Wards.

57. *Clause 38* is also new. It saves the rights of secured creditors whose incumbrances have not been set forth by an applicant for settlement, or who

may not have assented to conditions inserted in an instrument of settlement for the continuance or discharge of their incumbrances.

58. We recommend that the Bill, as now amended, be passed.

P. Act II of 1900, s. 6.]

(*a*) reject such application, or

(*b*) grant permission to make the proposed settlement, in respect either of the whole of the property to which the application relates or of any part thereof :

Provided that, if any incumbrances have been *set forth in the application* or brought to the notice of the Local Government, such permission shall not be granted unless—

(*i*) the incumbrances are first discharged, or

(*ii*) a condition is made for the insertion in the settlement of provisions, to be *assented to by the creditors and* approved by the Local Government, for the discharge of the incumbrances, *or for their continuance, with or without modification, and for the payment of interest thereon.*

(2) If the right of the applicant to make the settlement is disputed by, or on behalf of, any person interested or claiming to be interested in the estate, the Local Government may, if it thinks fit, refer the matter in dispute to the Civil Court for decision, before determining whether to reject the application or to grant permission to make the proposed settlement. [*Cf.* Ben. Act VII of 1876, s. 58.]

Rejection no bar to making fresh application.

9. *The rejection under section 6 or section 8 of an application for permission to make a settlement of an estate under the foregoing provisions of this Act shall be no bar to the making of a fresh application in respect of the same estate, if the applicant shows sufficient reason for so doing.*

PART III.—*Provisions to be contained in first settlements.*

Settlement of estates for three generations.

10. *(1)* Every settlement made under *the foregoing provisions* of this Act in respect of any estate shall provide that the estate shall be held for life—

(*a*) by the settlor, as *first tenant for life*,

(*b*) and thereafter, by *the second tenant for life, who shall be* the eldest or only son of the *first tenant for life*,

(*c*) *and thereafter, by the third tenant for life, who shall be the eldest or only son of the second tenant for life.*

(2) Every such settlement shall further provide,—

(i) *if the estate is one to which the settlor was, immediately before the execution of the settlement, solely entitled*—that, after the life of the *third* tenant for life, the eldest or only son of such tenant shall hold the estate absolutely;

(ii) *if the estate belonged, immediately before the execution of the settlement, to a joint Hindu family—that, after the life of the third tenant for life, the eldest or only son of such tenant shall during his life be the karta or manager of the estate, but without prejudice to the rights of any persons who, but for the settlement, would be co-owners of the estate; and*

(The Bengal Settled Estates Bill.—Part III.—Provisions to be contained in first settlements.—Clauses 11, 12.)

(iii) if the estate belonged, immediately before the execution of the settlement, to co-sharers—that, after the life of the third tenant for life, the eldest or only son of such tenant shall have during his life the sole right of management over the estate;

but subject in each case to the terms of any fresh settlement made by a tenant for life in pursuance of permission granted under section 16.

(3) If the eldest or only son of the settlor has predeceased the settlor, or if the settlor desires to exclude *such* son from holding the estate on the ground of incapacity or defect of character *which is proved by the settlor to the satisfaction of the Local Government,* then, notwithstanding anything contained in the foregoing sub-sections, the Local Government may permit him to provide *in the settlement*—

(i) that the second tenant for life shall be another son of the settlor, *if he has another son, or the eldest or only son of the son who has predeceased the settlor or has been excluded as aforesaid, and*

(ii) that the third tenant for life shall be the eldest or only son of the second tenant for life, or the eldest or only son of the son who has predeceased the settlor or has been excluded as aforesaid.

Further remainders.

11. Every settlement made under *the foregoing provisions of* this Act *may* also contain provisions for vesting the estate, in the event of the *settlement on* the second tenant for life *or the third tenant for life* or his son failing to take effect, *in some other person descended from the settlor or the settlor's father in the direct male line.*

Further provisions in settlements.

12. *(1)* Every settlement made under *the foregoing provisions of* this Act shall specify all incumbrances referred to in clause *(ii)* of section 8.

(2) Every such settlement shall also contain such provisions as may be approved by the Local Government with regard to the following matters, namely:—

(a) the discharge of incumbrances on the estate, and the payment of interest thereon; *or their continuance (with or without modification), and the payment of interest thereon;*

(b) the maintenance of *the co-owners and co-sharers (if any) by or on whose behalf a declaration has been made under clause (ii) of section 5, and of all persons who at the time of the execution of the settlement are, or thereafter may be, legally entitled to maintenance out of the estate;*

(c) the management of the estate after the death of the settlor—

(i) during a period not exceeding five years after such death, pending the adoption of a son under the circumstances described in sub-clause (ii) *of clause (h) of section 2, or*

(ii) during the minority of the second tenant for life;

(d) the management of the estate after the death of the second tenant for life—

(i) during a period not exceeding five years after such death, pending the adoption of a son under the circumstances described in sub-clause (ii) *of clause (h) of section 2, or*

(ii) during the minority of the *third tenant for life;*

(e) the management of the estate after the death of the third tenant for life—

(i) during a period not exceeding five years after such death, pending the adoption of a son under the circumstances described in sub-clause (ii) *of clause (h) of section 2, or*

(ii) during the minority of the next holder.

(The Bengal Settled Estates Bill—Part IV.—Supplementary settlements and fresh settlements.—Clauses 13-15)

(*3*) If any settlement made under *the foregoing provisions of* this Act *includes* money, *securities for money* or moveable property, the settlement shall contain such provisions as may be approved by the Local Government for vesting such money, *securities* or property in a trustee, for the investment *or conversion* of such money *or securities* in *or into* securities authorised by section 20 of the Indian Trusts Act, 1882, *and for the payment to the trustee of expenses and remuneration in accordance with rules made under section 20, clause (c).* II of 1882

Explanation.—The Official Trustee of Bengal, the Collector or any private person may be appointed to be a trustee for the purposes of this sub-section.

(*4*) In addition to the various matters hereinbefore specified, the Local Government may require *or permit* the insertion in any settlement made under *the foregoing provisions of* this Act of any provision which it may think fit, and may make its approval of the settlement conditional on *the* insertion *of provisions which it has required to be inserted:*

Provided that no provisions inserted in pursuance of this sub-section shall operate to the prejudice of any secured or unsecured creditor unless assented to by him.

PART IV.—*Supplementary settlements and fresh settlements.*

Supplementary settlement in respect of property.

13. (*1*) At any time after a settlement has been made under *the foregoing provisions of* this Act, a tenant for life may apply to the Local Government for permission to make a supplementary settlement for the purpose of adding further property to the settled estate— [*Cf.* U. P. Act I of 1900, s. 7]

(*a*) if he is competent to contract,

(*b*) if he is in possession of such property, *either in his own right or along with or on behalf of others, and*

(*c*) if such property *is held in* permanent, heritable and transferable right.

(*2*) *Provided that no application may be made under sub-section (1) in respect of any property—*

(*i*) *unless the applicant is solely entitled to the property, or*

(*ii*) *if the property belongs to a joint Hindu family—unless the applicant is the karta or managing member of the family, or*

(*iii*) *if the property belongs to co sharers—unless the applicant is a principal shareholder in the property and has, by custom or with the consent of his co-sharers, the sole right of management over the property.*

(*3*) The provisions of sections *4 to 9* shall apply to every application made under sub-section (*1*) in respect of any property, *and the provisions of sections 10 to 12 shall apply to every settlement of such property, as if the property were an "estate" within the meaning of those sections.*

Power to apply for permission to make a supplementary settlement in respect of persons

14. *If, at any time after any settlement has been made under the foregoing provisions of this Act, the second tenant for life dies during the life of the settlor, or the settlor desires to exclude him from holding the estate on the ground of incapacity or defect of character which is proved by the settlor to the satisfaction of the Local Government,*

the settlor may, if he is competent to contract, apply to the Local Government for permission to make a supplementary settlement for the purpose of appointing to be second tenant for life and third tenant for life, respectively, any other persons who might have been so appointed in pursuance of clauses (i) and (ii) of sub-section (3) of section 10.

Power to apply for permission to make a [illegible] settlement

15. At any time after any settlement has been made under *the foregoing provisions of* this Act, a tenant for life of a settled estate may, if he is competent to contract, apply to the Local Government for permission to make a fresh settlement of the estate.

(The Bengal Settled Estates Bill.—Part IV.—Supplementary settlements and fresh settlements.—Clauses 16, 17.)

Procedure in dealing with applications under section 14 or 15.

16 *(1) The provisions of section 4, sub-section (1), and section 9 shall apply to every application for permission to make a supplementary settlement in respect of persons or a fresh settlement.*

(2) If any such application relates to an estate to which the settlor was, immediately before the execution of the former settlements, respectively, solely entitled, the Local Government may, in its discretion, *and* after such inquiry (if any) as it may think fit to make, by written order, either—

(*i*) reject the application, or

(*ii*) grant permission to make the proposed settlement.

(3) If any such application relates to an estate which belonged, immediately before the execution of the former settlements, respectively, to a joint Hindu family or to co-sharers, the application must be accompanied by a declaration by all persons (other than the applicant) who, but for such settlements, would be co-owners of or co-sharers in the estate, to the effect that they are willing to assent to the proposed settlement.

(4) If any of such co-owners or co-sharers is, at the time when the application is made, a minor or a lunatic, a declaration under sub-section (3) of this section may be accepted if it is made and approved as indicated in sub-section (2) or sub-section (3), as the case may be, of section 5.

(5) In every case referred to in sub-section (3) of this section, the Local Government

shall send a copy of the application, and of the declarations which accompanied it, to each person who has made a declaration in pursuance of that sub-section,

and, with the previous sanction of the Governor General in Council, shall publish a notification—

(a) setting forth the application and the declarations which accompanied it;

(b) calling upon all persons (other than creditors) interested or claiming to be interested in the estate, to send to the Local Government written notice of their interests within a period of six months from the date of the notification, and

(c) intimating that any objections by such persons to the proposed settlement, which may be communicated to the Local Government in writing within the said period, will be duly considered,

and, at any time after the expiration of the said period, and after considering any notices and objections received under this sub-section, and after such inquiry (if any) as it may think fit to make, may, in its discretion, by written order, either— [U. P. Act II of 1900, s. 6.]

(i) *reject the said application, or*

(ii) *grant permission to make the proposed settlement.*

Provisions as to fresh settlements.

17. *(1) The provisions of sections 10, 11 and 12 shall apply to every fresh settlement made in pursuance of permission granted under section 16.*

(2) All property, which, immediately before the execution of a fresh settlement in respect of any estate, is included in any former settlement of the estate made under this Act, must be included in such fresh settlement.

(3) No property shall be included in any fresh settlement made under this Act in respect of any estate unless it is, immediately before the execution of such settlement, included in a former settlement of the estate made under this Act.

(4) If any incumbrance, which is dealt with in any former settlement made under this Act in respect of any estate, is still in existence at the time of the execution of a fresh settlement of the estate, then nothing contained in such fresh settlement shall affect the rights of the creditor unless assented to by him.

(5) Every fresh settlement made under this Act in respect of any estate shall, subject to the foregoing provisions of this section, supersede *all* former settlements *made under this Act in respect of such estate.*

(*The Bengal Settled Estates Bill.—Part V.—Settlements generally.—Clauses 18-21.*)

PART V.—*Settlements generally.*

Approval, stamping and registration of settlements.

18. (*1*) No settlement made under this Act shall take effect unless the instrument of settlement— [*Cf.* U. P. Act II of 1900, s. 10.]

(*a*) is of a non-testamentary character,

(*b*) is attested by two or more witnesses,

(*c*) has been approved by the Local Government before execution, and the fact of such approval having been given is certified on the instrument by one of the Secretaries to the Local Government,

(*d*) bears a stamp *of the full value prescribed by* sub-section (*2*), *or, if the sanction of the Board of Revenue has been given under sub section* (*3*), *of one-third of such value*, and

(*e*) is registered within three months after the said approval has been certified as aforesaid.

(*2*) Every instrument *of settlement made under this Act, not being a supplementary settlement referred to in section 14 or a fresh settlement referred to in section 15*, shall, *notwithstanding anything contained in the Indian Stamp Act, 1899*, bear a stamp of a value equivalent to one-fourth of the annual net profits of the estate comprised in the settlement : II of 1899.

(*3*) Provided that a stamp of one-third of such value may be affixed, with the previous sanction of the Board of Revenue, on arrangements being made to its satisfaction for the affixing of stamps for the rest of such value at subsequent dates within three years from the date of the instrument.

(*4*) If any question arises, with reference to sub-section (*2*) *or sub-section* (*3*), as to the amount of the annual net profits of any estate, the decision of the Board of Revenue thereon shall be final.

(*5*) *Every instrument making a supplementary settlement referred to in section 14 or a fresh settlement referred to in section 15 shall, notwithstanding anything contained in the Indian Stamp Act, 1899, bear a stamp of ten rupees.* II of 1899.

(*6*) Subject to the foregoing provisions of this section, every instrument of settlement shall take effect from the date of its *execution*.

Bar to application of succession laws, in respect of property comprised in settlement.

19. THE following Report of the Select Committee on the Bengal Public Parks Bill, together with the Bill as amended by the Committee, is, by order of the President, published for information :—

REPORT OF THE SELECT COMMITTEE.

WE, the undersigned, Members of the Select Committee appointed to consider the Bill for the regulation of Public Parks in Bengal, have considered the Bill and the papers noted in the margin, and have the honour to submit this our Report, with the Bill as amended by us annexed hereto.

(1) Letter, dated the 9th January, 1904, from Babu Shrish Chunder De [Paper No. 1.]
(2) Letter from the Secretary, Muhammadan Defence Association, No. $\frac{1900}{65P.}$, dated the 14th January, 1904 [Paper No. 2.]

2. The amendments which we have made in the Bill are printed in italics, and the principal amendments are explained in the following paragraphs.

3. *Clause 3* is new. It empowers the Local Government to declare that any specified land, bridge or pontoon shall, for the purposes of the Bill, be deemed to be included in any park. The clause is required in order to admit of the extension of the Bill to the pontoon at the river-entrance to the Royal Botanic Garden, Sibpur, since offences against some of the rules referred to in clause 4 of the Bill might be committed there. The clause will also be useful in other cases which need not be mentioned in detail.

4. *Clause 4.*—The list of particular purposes for which rules may be made has been amplified.

5. *Clause 6.*—The word "detained" has been substituted for the word "arrested," because the latter word implies a touching or confining of the body of the offender (*see* section 46 of the Code of Criminal Procedure, 1898), and such action will not ordinarily be necessary in the cases referred to in this clause, which are those of an offender refusing to give his name and residence.

The maximum period for which an offender may be detained under this clause has been reduced from 24 to 12 hours.

6. *Clause 7.*—For clause 7 of the Bill as introduced in Council we have substituted a clause which will have the effect of bringing superintendents and park-durwans within the category of public servants for the purposes of Chapters IX and X of the Indian Penal Code.

7. We recommend that the Bill, as now amended, be passed.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye-observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the New Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed at the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A M. of that day.

Rules for regulating the use of Motor-Cars and Motor-Cycles.

No. 1126J.—The 8th February 1904.—In exercise of the powers conferred by section 3 of the Bengal Motor-Car and Cycle Act, 1903, the Lieutenant-Governor is pleased to make the following rules for regulating the use of motor-cars and motor-cycles in streets and public places in the town and suburbs of Calcutta and in the town of Howrah:—

Calcutta. Howrah.

1. In these rules the expression "motor-car" does not include a traction engine, and only includes such vehicles, carriages or other means of conveyance or engines as, being propelled or capable of being propelled, either entirely or partially, by mechanical power, run on ordinary roads or streets as distinguished from such as run on special rails.

2. A motor-car or motor-cycle shall not be used unless it is so constructed as to admi of its being at all times under full control so as to prevent undue interference with passenger or other traffic, and unless it is maintained in such a condition as to prevent danger to the public or to any person riding on the car or cycle.

3. A motor-car or motor-cycle shall not be used unless it is provided with two independent brakes or other means of stoppage approved by the Commissioner of Police, in good working order and of such efficiency that the application of either will be capable of forthwith stopping the car or cycle.

4. (1) No motor-car or motor-cycle shall be used until it has been registered by the Commissioner of Police, Calcutta.

(2) The fee for such registration shall be Rs. 16 except in the case of motor-cycles, for which it shall be Rs. 4. The Commissioner of Police may remit the whole or any part of the fee in the case of any motor-car or motor-cycle that has been registered within the preceding 12 months elsewhere in British India under any law or regulation in force.

(3) The Commissioner of Police shall assign a distinguishing number to the car or cycle, and shall record the name and address of the owner. Every transfer of ownership or change of address shall be forthwith intimated to the Commissioner by the registered owner.

(4) In the case of a manufacturer of, or dealer in, motor-cars or motor-cycles, a general number may, on payment of an annual fee not exceeding Rs. 30, be assigned to be used on any car or cycle when on trial after completion, or when on trial by an intending purchaser, or when being used by a person licensed as in rule 7 for the purpose of instructing any other person in the use of the car or cycle.

(5) Before registering a motor-car or motor-cycle, the Commissioner of Police shall, among other matters, satisfy himself that it conforms to the conditions laid down in these rules as to brakes or other means of stoppage, lamps, numbers, bell or other instrument for notifying approach, and means of locking or disconnecting the mechanism to prevent the vehicle being started in the driver's absence.

(6) Should the Commissioner of Police, at any time after a car or cycle has been registered, have reason to believe that it has become defective in any such respect or that it has not been maintained in such a condition as to prevent danger to the public, he may, after notice to the owner, direct that the registration be cancelled until such time as the defects are rectified to his satisfaction.

5. (1) No motor-car or motor-cycle shall be used unless the number referred to in the preceding rule is attached to it in a conspicuous place, and to the satisfaction of the Commissioner of Police, in large white figures on a black ground, legible at a reasonable distance, on the front and back of the car or cycle, and on the back of any vehicle drawn by the car or cycle.

Each figure on a motor-car must be at least 3½ inches high, with a margin of half an inch both above and below it and a margin of an inch on either side thereof. On a motor-cycle the figures need be only half the above dimension, and the front number may be shown on each side of a plate projecting forward.

(2) During the time when lamps are required by rule 6 to be kept lit, the number at the back of the car or cycle, or of any vehicle drawn behind it shall be illuminated in a manner to be approved by the Commissioner of Police, so as to be legible at a reasonable distance; but it is not necessary that the number-plates for day and for night use should be the same.

(3) The said numbers shall not be in any way obscured or rendered or allowed to become not easily distinguishable.

6. (1) To every motor-car when in use at night shall be attached two lamps, one on either side, exhibiting a white light forward, visible within a reasonable distance. A red light similarly visible shall also be exhibited in the reverse direction either by the said lamps or by a separate lamp attached to the back of the car.

(2) Every motor-cycle, when in use at night, shall carry a lamp in front, exhibiting a white light forward, visible within a reasonable distance.

(3) The said lamps shall be kept lit and free from all obstructions so long as the car or cycle is in use during the period between half-an-hour after sunset and half-an-hour before sunrise.

7. (1) No person shall drive a motor-car or motor-cycle unless he holds a subsisting license granted by the Commissioner of Police, Calcutta, authorizing him to drive a motor-car

or a motor-cycle as the case may be; and no person shall employ any one to drive a motor-car or motor-cycle who is not so licensed.

(2) A fee of Rs. 10 shall be payable for such license in respect of a motor-car and of Rs. 2 in respect of a motor-cycle. The Commissioner of Police may remit such fee in the case of any person holding a subsisting license granted elsewhere in British India under any law or regulation in force.

(3) A license shall remain in force for such period, not being less than twelve months, as the Commissioner of Police may direct. The fee payable on renewal of a license shall be one-fourth of the amounts specified above.

(4) Such license may be cancelled by the Commissioner of Police, or may be suspended for such period as he may deem necessary, when the holder has been convicted of an offence under the Bengal Motor-Car and Cycle Act, 1903, or of an offence under any other Act in connection with the use of a motor-car or motor-cycle.

8. (1) A motor-car or motor-cycle shall not be allowed to stand in any street or public place unattended by a person holding a subsisting license under rule 7, unless the mechanism be locked or disconnected in such a way that the car or cycle cannot be put in motion in the absence of the driver.

9. A motor-car or motor-cycle shall not be driven in a street or public place recklessly or negligently, or at a speed or in a manner which is likely to endanger human life, or to cause hurt or injury to any person or animal or damage to any goods carried in any vehicle or by any person, or which would be otherwise than reasonable and proper, having regard to all the circumstances of the case, including the nature, condition and use of the street or public place and to the amount of traffic which is actually on it at the time, or which may reasonably be expected to be on it.

Provided always that under no circumstances shall a motor-car or motor-cycle be driven at a greater speed than 12 miles an hour.

10. A motor-car or motor-cycle shall not be driven on any footway, nor shall such be driven in any street or public place where such traffic may for the time being be prohibited by the Commissioner of Police, Calcutta, or by the Magistrate of Howrah, as the case may be, as being especially dangerous.

11. (1) The person in charge of a motor-car or motor-cycle shall cause the car or cycle to stop and to remain stationary so long as may reasonably be necessary—

(*a*) when requested to do so by any police officer for the purpose of regulating traffic or of ascertaining his name and address, or for any other reasonable purpose, or

(*b*) when requested to do so by any person having charge of a restive horse, or

(*c*) when an accident occurs to any person or to any animal or vehicle in charge of any person, owing to the presence of the car or cycle on the road.

(2) The request referred to above may be made by such police officer or person putting up his hand as a signal to stop or at night in such manner as the Commissioner of Police may direct.

(3) The person in charge of the car or cycle shall, on the request of any police officer or, on the occurrence of an accident such as is referred to in clause (1) (*c*) above, on the reasonable request of any other person, truly state his name and address and the name and place of abode or business of the owner of the car or cycle.

12. The person in charge of a motor-car or motor-cycle shall obey all direction of police officers posted or stationed at crossings or other places for the regulation of traffic.

13. The driver of a motor-car or motor-cycle shall keep on the left side of the road, except that he shall keep to the right of any vehicle or horse proceeding in the same direction which he may be desirous of passing.

14. The driver of a motor-car shall not cause the car to travel backwards for a greater distance or time than may be requisite for purposes of safety.

15. Every motor-car or motor-cycle shall carry a bell or other instrument capable of giving audible and sufficient warning of the approach or position of the car or cycle; and the driver shall sound such bell or instrument whenever it may be necessary to do so.

16. The driver of a motor-car shall not be in such a position that he cannot have control over the same.

(*a*) Provided that the inspection of boilers in the Raniganj, Giridih, and Gobindpur subdivisions, in the districts of the Santhal Parganas and Patna, or in the Municipalities of Burdwan and Bhagalpur shall be made during the months of November to May inclusive, and in the towns of Dacca and Narayanganj during the months of June and July; and the Vice-President and Secretary shall give 14 days' notice of the dates of such inspections

(*b*) If any boiler needs inspection at other times to that specified in sub-clause (*a*), either as being a new boiler requiring a certificate, or as being a boiler which the owner from any other reason wishes to have inspected, it may, on the application of the owner, manager, or agent, be so inspected.

An additional fee of Rs. 50 to that of the above will be charged for the inspection of a boiler on a Sunday.

Formula for calculating horse-power.

For tubular and internally fired boilers, area of grate multiplied by 2 = H.-P.

For egg-ended and externally fired boilers, area of grate multiplied by $1\frac{1}{2}$ = H.-P.

XVII.—In addition to the above fees, an Inspector's travelling expenses shall be realised from such owners of boilers in the extended jurisdictions as may apply for inspection of their boilers out of season, as well as from owners whose boilers are not ready for inspection on the first visit made on their application, whether in Calcutta and its Suburbs and in Howrah or in the added areas, for every additional visit paid by the Inspector for the completion of inspection.

XVIII.—Registers shall be kept in the Boiler Commission Office of all boilers inspected, in which full particulars of the boilers shall be entered in the manner prescribed by the Commissioners, and a number shall be allotted to each boiler corresponding to the number of entry regarding it in the register.

The registered number of a boiler is to be conspicuously cut into the front plate by block type three-eighths of an inch large, with a Crown mark, and the initial letter of the register over the figures for Calcutta, Raniganj or other register, as the case may be; the marks being enclosed by a rectangular figure, $2\frac{1}{2}$ inches in length by $1\frac{1}{2}$ inches in breadth, made with a chisel; and the Inspectors are to state in their declarations that this has been done.

XIX.—The Commissioners shall from time to time, as may seem necessary, make regulations as to the inspection of steam-boilers and the fittings to be required by Inspectors for steam-boilers under the provisions of section 6 of Act III of 1879.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 859B.

NOTIFICATION.

MISCELLANEOUS REVENUE DEPARTMENT.

MISCELLANEOUS BRANCH.

THE HON'BLE MR. C. E. BUCKLAND, C.I.E.

Dated Calcutta, the 28th January 1904.

IN supersession of the rules published in the Board's Notification No. 1196B., dated the 11th June 1898, and with reference to clause 11 of the rules published in Notification by the Government of Bengal No. 1225 S R., dated the 21st February 1898, the following revised rules are laid down to regulate the export of opium by sea from Calcutta :—

1. Opium may be exported by sea from the port of Calcutta if it has been purchased from the Government at a public sale held by the Board of Revenue, and is covered by a pass or certificate granted by the Board. A certificate is a document authorising the Collector of Customs to allow the shipment of the opium specified in it. The currency of a certificate is four days, exclusive of its date of issue, and exclusive of Sundays and Custom House holidays. No pass or certificate for the export of opium will be issued on the same day on which the opium has been sold.

2. Shipping bills for exportation of opium must be printed in red ink and presented at the Custom House in duplicate, accompanied by a certificate in such form as the Board may direct. The duplicate on which the pass is granted will be returned to the shipper to obtain delivery from the opium godowns, the original being forwarded to the gate officer on the wharf to expedite the passing of the opium out of the Custom House.

3. If any opium covered by a certificate is not removed from the Presidency Godowns within a period of four days from the date of the issue of the certificate, the holder of the certificate must, within 24 hours next after the expiry of the said period, apply to the Board of Revenue for a fresh certificate.

4. If any opium has been removed from the Presidency Godowns within the said period of four days, and has been passed out by the Customs authorities for export, but has not been shipped within the said period by reason of the opium being shut out from the ship in which it was intended to be shipped, or for any other reason, the shipper must, without delay, apply to the Board for a fresh certificate, and must, pending the issue of such certificate, either (*a*) return the opium to the Presidency Godowns, with the permission of the Collector of Customs, or (*b*) keep it, with the permission of the said Collector, under sealed hatches at a mooring ghat to be fixed by the Superintendent of the Calcutta Customs Preventive Service.

5. A charge of ten rupees shall be made for the services of the Customs Officer deputed to supervise the returning of opium to the Presidency Godowns, or the sealing of hatches, in pursuance of rule 4 of these rules.

6. (*a*) On ordinary working days, no treasury receipt in payment of opium, and no pass, will be accepted by the Board after 3-30 P.M., and no certificate will be granted after 4 P.M.

(*b*) On Saturdays, no receipt or pass will be accepted after 1-30 P.M., and no certificate granted after 2 P.M.

(*c*) A certificate is not transferable, and no one but the person named on the face of it by the Board will be entitled to export opium on it.

7. The certificates granted by the Board are to be returned to the Board, within thirty days, duly cancelled.

8. A fee of five rupees will be charged to a shipper on presentation of shipping bills after 4 P.M. on the day of clearance of the China steamer.

9. Opium intended for export, which is not cleared from the godowns before 4-30 P.M., shall be conveyed to the steamer or ship from the ghat opposite the opium godowns in covered cargo-boats with properly secured hatches.

10. As soon as the Intendant is aware that clearances will be made after 4-30 P.M., he shall make immediate report to the Collector of Customs, who will at once appoint one or more Preventive Officers, as may be necessary, to be in attendance at the ghat at which the cargo-boats lie. In his report the Intendant shall mention the probable number of chests which will be removed during the evening; and each day, as long as clearances are going on, he shall furnish the Collector of Customs with a similar report.

11. The Preventive Officer at the ghat shall examine all boat-notes and chests, and see the latter placed in the hold of the cargo-boat. He shall then secure and seal, with a distinctive mark, the hatches or other openings or doors of the cargo-boat by which access

may be had to the hold, before allowing the boat to proceed to the steamer or ship. He shall also make an entry in the boat-note, specifying that the hatches or other openings or doors have been sealed.

12. The Preventive Officer on board the receiving steamer or ship shall carefully examine the seals affixed to the hatches or other openings or doors of a cargo-boat laden with opium, as soon as the boat arrives alongside the vessel, and shall not allow the seals to be broken in any case until he is prepared to receive the opium on board, and to superintend the removal of the chests from the hold of the cargo-boat.

13. If it appears to the Preventive Officer on board the receiving vessel that the seals placed on the hatches or other openings or doors of a cargo-boat have been broken in transit, or have been in any way tampered with, he shall immediately bring the matter to the notice of the officer in charge of the vessel, and shall examine each chest carefully. If any theft of opium is discovered, the Preventive Officer shall make an immediate report to the River Police and to the Collector of Customs, mentioning at the same time the number of the cargo-boat and the name of the owner and *manjhi*.

14. A shipper who removes his chests of opium from the Government premises after 4-30 P.M. shall be required to pay a fee of two rupees for any number of chests up to twenty; three rupees for any number of chests above twenty and up to fifty; and five rupees for any larger number of chests.

15. The fees mentioned in rule 14 shall be realized by the Intendant before delivery of chests to the shippers, and shall be remitted daily by him to the Superintendent, Customs Preventive Service, for the remuneration of Preventive Officers, who may be employed beyond the usual working hours.

16. The Presidency Opium Godowns will be kept open free of charge for the delivery of opium chests to shippers between the hours of 10-30 A.M. and 5 P.M. on ordinary working days, and between the hours of 8 A.M. and 7 P.M. on days (including Saturdays and gazetted holidays) preceding the sailing of steamers in which the shipment of opium has been notified. For delivery of opium chests outside these hours the Intendant shall require the payment of a fee of sixteen rupees in respect of each requisition, and a further fee of two annas in respect of each chest delivered. No application for the delivery of opium chests shall be received by the Intendant after 9 P.M.

17. The procedure described in rules 9 to 15, both inclusive, is enjoined especially in the case of opium cleared from the godowns after 4-30 P.M., but it may, on application by the shipper to the Intendant, be followed in the case of opium cleared before that time.

J. H. KERR,

Offg. Secretary.

The Hon'ble BABU SALIGRAM SINGH.

NEW MEMBER.

The Hon'ble MR. D. B. HORN took his seat in Council.

CHANGE IN THE ORDER OF BUSINESS.

The Hon'ble THE PRESIDENT said:—"I propose to suspend the Rules of Business to this extent that the Legislative Business will be taken first, for the convenience of Hon'ble Members for whom this hour of the morning is inconvenient to meet."

THE BENGAL PUBLIC PARKS BILL.

The Hon'ble MR. BUCKLAND presented the Report of the Select Committee on the Bill for the regulation of Public Parks in Bengal.

THE BENGAL SETTLED ESTATES BILL.

The Hon'ble MR BUCKLAND also presented the Report of the Select Committee on the Bill to facilitate the family settlement of estates in Bengal.

THE BENGAL TRAMWAYS (AMENDMENT) BILL.

The Hon'ble MR. SHIRRES moved that the Bill to amend the Bengal Tramways Act, 1883, be taken into consideration at the next meeting of the Council.

The Motion was put and agreed to

RULES FOR THE CONDUCT OF LEGISLATIVE BUSINESS.

The Hon'ble MR. MACPHERSON moved that a Select Committee, consisting of the Hon'ble Mr. Woodroffe, the Hon'ble Dr. Asutosh Mukhopadhyaya and the Mover, be appointed to consider certain amendments which have been suggested in the Rules for the conduct of the Legislative Business of the Council. He said:—

"The Rules of Business of the Council are made by the Lieutenant-Governor in Council under the provisions of section 48 of the Indian Councils' Act of 1861.

"Our rules were last revised 14 years ago in the year 1890 when the Hon'ble Sir Steuart Bayley was President of the Council; and the revision was made at the President's instance. Revision of some of the rules is now proposed at your Honour's instance in order to expedite and improve the work of the Council. The amendments proposed are explained in a note which has been laid on the table.

"Briefly, the first object of the proposed amendments is to save unnecessary delay and formalities in the early stages of introduction of Bills and reference of them to Select Committees. It has been of common occurrence, as the volumes of Proceedings of the Council will show, to suspend the Rules in order to expedite business at these stages and to save Hon'ble Members the trouble of attendance at merely formal sittings. But frequent suspensions of Rules are open to obvious objection; and when a rule is found to be unsuitable the better course seems to be, not to suspend it frequently, but to amend it. The amendments proposed under this head, if approved, will assimilate the practice of the Council in dealing with Bills in their early stages to that of the Governor General's Council.

"The second object proposed is to amend the rule which requires all Bills to be published not only in English but also in the Vernaculars The rule in the Governor General's Council is that such publication shall be made in the vernacular as the Council in each case may decide to be necessary for the purpose of giving notice to the communities affected by the Bill. It is proposed to adopt this rule for our Council. The other amendments proposed are formal and do not require any remarks from me.

"The rules might perhaps be amended with advantage in particulars other than those proposed in the note which has been laid on the table. But the present intention is to meet practical difficulties which have actually arisen; and unless any really important proposals be brought forward in Committee for further amendments than those set out in the Explanatory Note, it would be an advantage to save technical discussions and to confine the present work of revision within limits.

"It will be in accordance with the precedent of the last occasion on which the rules were revised that a Select Committee should be appointed to consider the amendments proposed, and I accordingly submit to the Council the motion which stands in my name."

The Hon'ble MR. WOODROFFE said:—"There is one matter to which the Hon'ble Member has not alluded, but which I think would come within the principles to which he has referred, and that is the insertion of a rule providing for the re-commitment of Bills to a Select Committee when necessary to do so, and that such re-commitment might be either general, or limited to particular matters in accordance with the rules which are to be found on this subject in May's Parliamentary Practice."

The Hon'ble MR. MACPHERSON said:—"The Hon'ble Advocate-General's suggestion is covered by one of the amendments proposed."

The Motion was then put and agreed to.

QUESTIONS AND ANSWERS.

EXTRA PLATFORM AT SHAIKPURA STATION.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—

(*1*) I have the honour to lay before Government the following for its favourable consideration:—

(*a*) that Shaikpura, in the district of Monghyr, Bhagalpur Division, is an important place, having a Railway Station (South Behar Railway); and not only the town of Shaikpura, but also Hosainabad and other adjoining places, are important owing to very many respectable and rich Muhammadan families having family residences there from time immemorial;

(*b*) that it is a well-known fact that the *purdah* system of the females, in Muhammadan as well as in Hindu respectable families, is strictly observed and maintained;

(*c*) that the Shaikpura Railway Station has a platform on only one side of the line and not on the other,

(*d*) that for want of a platform on one side of the line the females (*purdah* ladies) feel great difficulty and are inconvenienced by getting into and coming out of, the railway carriages on that side of the line;

(*e*) that for want of a platform on one side of the line the *purdah* ladies of respectable families have to go, in *palkees* and otherwise, long distances to catch the trains at the stations which are provided with platforms on both sides of the line, thereby entailing unnecessary expense and trouble to them.

(*2*) Will the Government be pleased to draw the attention of the Railway Authorities to the importance of the necessity of supplying the want, by keeping a platform on each side of the line?

The Hon'ble MR. HORN replied:—

"The Railway Authorities have already had under consideration the provision of a second raised platform at Shaikpura station on the South Behar Railway, but have been unavoidably forced to defer it owing to the heavy expenditure already incurred on the construction of the line and the poor returns received from it. They are desirous of providing every convenience for the travelling public, and with this end in view trains are dealt with, as far as possible, on that side of the line on which the raised platform is situated. In the circumstances no further expenditure can, in the interests of the shareholders of the Company, be incurred under present conditions in supplying extra platform accommodation at Shaikpura station."

THE DEOGHUR SUB-DIVISION.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said :—

I beg to draw the attention of Government to the fact that the Deoghur Sub-division, amongst other sub-divisions of the district of the Sonthal Parganas, is far advanced in education, manners, customs, habits of life and business, and that the number of the Sonthals, compared with the number of Non-Sonthals, living in that sub-division, is very small; whereas it is very different in other sub-divisions of that district.

(*a*) Will the Government be pleased to place on the table a statement from the last Census, showing the Sonthal and Deckoo (other than Sonthals) populations separately, living in the following sub-divisions of the district of the Sonthal Parganas:—

(1) Deoghur.
(2) Jamtara.
(3) Rajmahal.
(4) Dumka.
(5) Godda.
(6) Pakur?

(*b*) Will the Government be pleased to consider and to state whether the Deoghur Sub-division, in its present condition, specially since the opening of the railway lines and from other points of view, should or should not be brought under the category of places enjoying the boon of the operation of laws and regulations in force there; no additional expenditure by Government being rendered necessary by the change, and the officers now employed in that sub-division being allowed to act as officers administering laws and regulations in regulation districts, and subject to such other condition or conditions or changes as may be deemed fit and desirable?

The Hon'ble MR. MACPHERSON replied :—

"(*a*) The statetment asked for is placed on the table.

"(*b*) The present would be a very inopportune time to make any change in the system of administration of the Deoghur Sub-division, as the sub-division is now under settlement. Nor is the Lieutenant-Governor of opinion that any case exists for making the change indicated by the Hon'ble Member. He is not prepared therefore to take up the question."

GRIEVANCES OF SONTHALS OF THE SERAIKHELA STATE.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said :—

I beg to draw the attention of the Government to an article in the *Amrita Bazar Patrika* of the 12th December last, in its 4th column, page 5, complaining of the conduct of some Raj and British officials towards a number of Sonthals in "Seraikhela," a tributary State in Chota Nagpur, about 10 miles from Chaibassa, the principal town of Singhbhum.

(*a*) Is it a fact that a memorial has been submitted by the Sonthals to the Government representing their grievances and seeking redress?

(*b*) If it has, will the Government be pleased to state whether an inquiry has been ordered?

(*c*) If the complaint be well founded, will the Government be pleased to take serious notice of the conduct complained of to prevent a recurrence of similar instances of oppression upon the poor *semi-barbaric* Sonthals?

The Hon'ble MR. MACPHERSON replied:—

"It is not a fact that a memorial from a number of Santhals of the Seraikhela State representing their grievances and seeking redress has been addressed to Government. A memorial from a proclaimed offender of the Seraikhela State, named Debi Santhal, who is absconding from a criminal charge, was received by Government last month. His counsel, who submitted the memorial, has been informed that when he surrenders himself for trial, his grievances, if any, will be duly inquired into, but that Government cannot consider a memorial from a fugitive from justice."

SUB-DEPUTY COLLECTORS AND THE PENSION RULES.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—

I beg to draw the attention of Government to a question asked by me relating to the existing rules as to whether service in the grades of Sub-Deputy Collectors, before confirmation, does or does not count for pension, as well as the answer of the Hon'ble Mr. Hare, which was to the effect that "under the existing rules such service did not count for pension, and that the subject was under the consideration of this Government," *vide* Abstract of the Council Proceedings, dated the 4th April last, page 102; and to request the favour of being informed of its decision, if any has since been arrived at?

The Hon'ble MR. MACPHERSON replied:—

"The question of reckoning service in the grades of Sub-Deputy Collectors prior to confirmation towards pension has been referred for the decision of the Government of India, and the orders of that Government are awaited."

SALE OF COPIES OF ENACTMENTS AND NOTIFICATIONS, ORDERS, ETC., RELATING TO THE SONTHAL PARGANAS.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—

(*a*) I beg to draw the attention of Government to the following facts:—

(*i*) that there are many important Government letters and notifications laying down general principles of administration in the Sonthal Parganas, which are and have to be frequently referred to in Courts of that district;

(*ii*) that copies of such letters and notifications, as well as copies of the Sonthal Civil Rules and the Regulations specially passed for that district are, as is understood, not sold to the public. These are Act XXXVII of 1855, Act X of 1857, Act V of 1859, Regulation III of 1872, Regulation II of 1886, Regulation III of 1886, Regulation V of 1893, and the Sonthal Parganas Rural Police Regulation, III of 1900, and the Sonthal Civil Rules lastly framed and passed in 1901;

(*iii*) that for the above reasons the suitors generally and the legal practitioners, when authorised to act for them, are put to much inconvenience and difficulty.

(*b*) Will the Government be pleased to state whether it is open to the public to publish and sell the Government letters, notifications, Regulations, Acts and Civil Rules referred to above? If not, will the Government be pleased to consider the advisability of allowing publication of the same to be made on behalf of itself for sale to the public, and inform the Council of its decision in the matter?

The Hon'ble MR. MACPHERSON replied:—

"The special Acts and Regulations in force in the Sonthal Parganas are sold to the public separately, in Volume I of the Bengal Code and in the

'Reprint of Laws and of selected Notifications, Orders and Rules specially in force in the Sonthal Parganas,' which was published from the Bengal Secretariat Press in 1898.

"The former Rules of Civil Procedure in the Sonthal Parganas were published in the reprint of 1898 just named. The rules were revised in the year 1901, when a copy was given to each petition-writer in the district. The rules of 1901 are now again under revision.

"Notifications of Government are published in the Calcutta Gazette. Many of the Notifications relating to the Sonthal Parganas are contained in the reprint.

"Copies of letters issued by Government are not ordinarily sold to the public, but certain letters issued by Government have been included in the reprint; and the policy laid down in other letters has long since been incorporated in the rulings of the Courts which are available to the public. The stock of copies of the reprint of 1898 has been exhausted, and a new and revised edition will be published hereafter, probably after the completion of pending settlement operations.

"There is no objection to private publication of Rulings, Acts, Regulations, Notifications and Rules relating to the Sonthal Parganas. The Government publications would, however, have more authority."

THE PROVINCIAL AND SUBORDINATE EDUCATIONAL SERVICES.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—

In answer to a question asked by the Hon'ble Maulvi Seraj-ul-Islam, Khan Bahadur, on the 28th March, 1903, about the improvement of the prospects of the officers of the Provincial Educational Service, Government was pleased to answer:—

"The matter has lately come up again, and the question whether it is practicable to improve the prospects of the Provincial and Subordinate Educational Services is at the present time under the consideration of the Lieutenant-Governor."

Will the Government be pleased to state whether it has come to any conclusion in regard to this matter, and if so, what?

The Hon'ble MR. EARLE replied:—

"The question of improving the prospects of the Provincial and Subordinate Educational Services has been referred by the Lieutenant-Governor to the Government of India, and is, at the present time, under the consideration of that Government. It is inexpedient at this time to make any statement regarding the views of this Government on the subject."

WEARING OF SHOES IN THE DOCK.

The Hon'ble BABU BHUPENDRA NATH BASU asked:—

(*1*) Has the attention of the Government been drawn to an editorial paragraph published in the *Amrita Bazar Patrika* of the 19th December last, alluding to an order issued by the District Magistrate of Hooghly to the effect that no accused person should be allowed to enter the dock with shoes on, and noticing a case in which a gentleman belonging to an aristocratic family in Calcutta, who was involved in a fishery case, was compelled, in spite of his protest, to put off his shoes before he got into the dock?

(*2*) Considering that it is neither the policy of the Government nor the intention of law that law-abiding and respectable people, who have the misfortune to be involved in criminal cases, should be put to unnecessary indignities such as the order of the District Magistrate of Hooghly seeks to impose upon all accused persons, irrespective of their social position and of the nature of their offence, will the Government be pleased to direct the withdrawal or modification of the order so as to allay the alarm which the order has created among the people of Hooghly?

The Hon'ble MR. MACPHERSON replied :—

"The Lieutenant-Governor has seen the paragraph in the *Amrita Bazar Patrika* of the 19th December last, to which attention is drawn, and has made inquiries of the District Magistrate of Hooghly.

"It appears that the salutary provision of Rule 14, Chapter XV, of the Police Code, regarding the searching of prisoners so as to be satisfied that no offensive weapons are carried into Court, and that prisoners do not enter the precincts of the Court with their shoes on, had not been enforced in the Courts of the Hooghly district in respect at least of the last precaution. The District Magistrate therefore ordered in November last that the rule regarding shoes should be enforced. In his order he omitted to add the words which had been made an addition to the Code by the Police Order of 6th February, 1903. These words limit the order to prisoners 'who wear shoes of Indian fashion.' A few weeks after the Magistrate's order was issued, his attention was drawn to this omission; and he modified his order accordingly.

"In the case referred to, the Deputy Magistrate directed the accused to remove his shoes; and this was apparently done in accordance with the order without any protest. The Lieutenant-Governor has had no reason for directing the withdrawal or modification of the District Magistrate's order, as he had already of his own motion brought that order into strict conformity with the orders of Government."

FINANCIAL EFFECT OF THE PROPOSED TRANSFER OF CERTAIN DISTRICTS TO ASSAM.

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

(*1*) Will the Government be pleased to prepare a statement for the information of the public, showing the amount of revenue and expenditure under each head of receipts and disbursements of each of the five districts of Bengal that are proposed to be transferred to Assam?

(*2*) And will the Government be pleased to state how the proposed transfer would affect the financial position of Bengal, and if it leaves Bengal poorer, how the deficiency is proposed to be met?

The Hon'ble MR. SHIRRES replied :—

"A similar question was asked by the Hon'ble Dr. Asutosh Mukhopadhyaya in the Supreme Council on the 22nd January. In reply he was told that any consideration of financial details, such as were referred to in his question, would be premature at the present stage. When a final decision is arrived at, any adjustment that may be found necessary will be made in connection with the Provincial Settlement. It is not necessary to say more than this at the present time."

ORDER OF ROTATION FOR ELECTION OF MEMBERS FOR THE BENGAL LEGISLATIVE COUNCIL.

The Hon'ble BABU BHUPENDRA NATH BASU said :—

Will the Government be pleased to lay on the table a statement showing the order of rotation of the different constituencies which vote for the election of Members to the Bengal Legislative Council, as was done in 1893 on the re-constitution of the Councils?

The Hon'ble MR. MACPHERSON replied :—

"It was decided last year by the late Lieutenant-Governor to defer preparation of such a list as was published in the Bengal Government Resolution of 25th March, 1893, showing the rotation in which Municipalities and District Boards should exercise the privilege of nominating Members for the Bengal Council.

"His Honour does not consider that it would be expedient for him at present to cause such a statement to be drawn up. He proposes to take up the matter later."

EMPLOYMENT OF EUROPEANS AND EURASIANS AS CLERKS IN THE SECRETARIAT

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

(*1*) Has the attention of the Government been called to an article appearing in the *Unity and the Minister* (an organ of the Brahmo Samaj) of the 27th December, 1903, under the heading "Extended employment of Europeans and Eurasians in the Bengal Secretariat clerical service"?

(*2*) Will the Government be pleased to make known its reasons for reserving 40 appointments in the superior grades of the clerical establishment of the Bengal Secretariat, carrying salaries between Rs. 60 and Rs. 400 a month, for Europeans and Eurasians?

(*3*) Is the Government aware that the reservation so made gives the following percentage of appointments to the reserved classes :—

Grade I.	Grade II.	Grade III.	Grade IV.	Grade V.	Grade VI.	Grade VII.	Grade VIII.	Grade IX	Total Grades I to IX
Rs	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs	Rs.
400	300	200	150	125	100	80	70	60	...
33·3	42·85	25	26·3	31·57	27·22	28·57	26·31	23·07	27·77

whereas the percentage of the reserved classes with reference to the general population of Bengal is only ·05?

The Hon'ble MR. EARLE replied :—

"The article in the *Unity and the Minister* of the 27th December last, and the question of the Hon'ble Member, appear to proceed on the assumption that the Notification of this Government of the 5th December, 1903, contemplates that Europeans and Eurasians should be more extensively employed in the Secretariat than has been the case in the past.

"2. This is not the case. It has always been accepted as necessary that a certain number of appointments in the Secretariat should be held by Europeans and Eurasians; but, under the system of examination in force, it was found that the requisite number was not being recruited. It was necessary to arrange for recruiting European and Eurasian clerks separately. The special cadre has been formed with the object of securing that the requisite number of officers of this class shall be available.

"3. The appointments reserved have been distributed between the several grades in accordance with what past experience has shown to be expedient."

SEPTIC TANKS AT RISHRA.

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

(*1*) Has the attention of the Government been drawn to a memorial addressed by the Hindu inhabitants of Rishra to the Magistrate of Hooghly, which appeared in the *Bengalee* of the 13th January last, in which they protest against the installation of septic tanks by the Hastings Jute Mills at Rishra?

(*2*) Is it the case, as the Chairman of the Serampore Municipality points out in his report to the Magistrate of Hooghly, which also was published in the *Bengalee* of the 13th January, that the intake of the Howrah Water-works is in close proximity to the places where the effluents from the septic tanks of the Rishra Mills have been arranged to fall into the river, and that they are not far from the intake of the Calcutta Water-works at Pulta?

(*3*) Is it the case, as observed by the Hindu inhabitants of Rishra in their aforesaid memorial to the Magistrate of Hooghly, that the site selected for the discharge of the contents of the septic tanks into the river is in the immediate vicinity of a Hindu temple and in the midst of a crowded locality?

(*4*) Having regard to sanitary considerations and the necessity of preventing the pollution of the river and the affront to the religious feelings of the Hindu community which such pollution involves, especially when caused by converted human excreta, will the Government be pleased to direct in the terms of the recommendation of the Chairman of the Serampore Municipality that the discharges from the septic tanks at Rishra should not be permitted to go into the river, and that they be diverted into the fields, where they may be used as manure?

The Hon'ble MR. SHIRRES replied:—

"The memorial referred to in the first part of the question has been received by the Lieutenant-Governor.

"The intakes of the Howrah and Calcutta Water-works are respectively 1¾ and 4 miles distant from the mills; but they are situated above and not below the mills. The upward movement of the water owing to the tides has been believed not seriously to affect the position.

"The Commissioner reports that there is no temple near the outfall or any building except those belonging to the mill. The temple is described by the Magistrate as a small roadside temple, and is near the septic tanks on the other side of the road and not near the outfall, as described in the question.

"In regard to the last paragraph of the Hon'ble Member's question, the Hon'ble Babu Kali Pada Ghosh was informed at the meeting of 12th December that the matter is receiving attention. The owners and managers of mills have been informed that they should not arrange for the installation of septic tanks without obtaining approval of the Sanitary Board to the effluent arrangements. Meanwhile existing tanks are in every case being examined and the Rishra tank is being specially dealt with."

THEFT OF GHEE ON RAILWAYS.

The Hon'ble BABU BHUPENDRA NATH BASU asked:—

(*1*) Has the attention of the Government been called to an article which appeared in the *Bengalee* of the 24th January last, in which a statement appears showing the number of tins of ghee which have been stolen from the railway godowns or on transit within the last few months, entailing heavy loss on the dealers?

(*2*) Is the Government aware that such thefts of parcels are of frequent occurrence, and that those who are put to loss in consequence have no remedy against the Railway authorities under the form of Risk Notes at present in vogue?

(*3*) Is the Government aware that Mr. Robertson, the Special Railway Commissioner, recently deputed by the Government of India, is of opinion that the conditions attaching to the Risk Notes in use on Indian Railways are of a very onerous nature, and has recommended that the Indian form of Risk Notes should be assimilated to the English form?

(*4*) Will the Government be pleased to take such steps as it may deem fit with a view to prevent the frequent recurrence of thefts of this kind?

The Hon'ble MR. HORN replied:—

"The report in the *Bengalee* newspaper of the 24th of January as regards the theft of ghee may be accepted as correct, except that the thefts have been distributed throughout the East Indian Railway, and have not been confined to Howrah alone. The total number of tins shown in the statement was about 5,000, and the transactions were distributed over a period of about seven months. The total number of cases said to have been lost was 163, so that the percentage works out to 3·27. The total number of tins of ghee which are delivered monthly in Howrah approaches 100,000.

"Ghee is peculiarly liable to thefts because it is packed in tins of a very portable description, and because it is of high value, say, Rs. 40 per maund. Consigners invariably despatch at 'Owner's,' in preference to 'Railway,' risk, and do not avail themselves of the opportunity given by the Railway Company to lock properly the doors of wagons containing ghee consignments.

"This Government is aware that Mr. Robertson, Special Railway Commissioner, recommended in his report the assimilation of the Indian form of Risk Note to that used in England, but as the report is still with the Government of India, no more definite reply can be given to the question.

"Special steps are taken at Howrah to protect ghee consignments. Recent thefts are being inquired into; and certain prosecutions are being conducted. The matter has the Agent's careful attention."

THIRD CLASS MONTHLY TICKETS ON THE EAST INDIAN RAILWAY.

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

(*1*) Has the attention of the Government been drawn to an article in the *Bengalee* of the 24th January last, pointing out (*a*) that the rates at present charged by the East Indian Railway on third class monthly tickets between Howrah and Baidyabati are the same as used to prevail when third class fares were 3 pies per mile, and that, while the fares on monthly tickets for stations beyond Baidyabati have been reduced since third class fares were reduced to 2½ pies per mile, the rates between Howrah and Baidyabati have not been reduced, and (*b*) that the rates for monthly third class tickets for the same distance on the Eastern Bengal State Railway are much less than the rates on the East Indian Railway?

(*2*) Having regard to the class of people who avail themselves of these monthly tickets, will the Government be pleased to inquire into the matter and take such steps as it may think necessary to redress the grievance?

The Hon'ble MR. HORN replied:—

"With reference to the article in the *Bengalee* newspaper of the 24th of January, regarding the charges for third class monthly tickets between Howrah and Baidyabati, it is correct that the charge at the present time is the same as when third class fares was 3 pies per mile. The charge, however, works out to 1·5 pies per mile, assuming that 26 journeys are taken each way in the month. The fares between Howrah and the longer distance stations to which monthly tickets are issued have been reduced; but it has not been considered necessary to reduce for short runs. The charge for monthly third class tickets between Howrah and Baidyabati is Rs. 6, the distance being 15 miles. Taking corresponding stations on the Eastern Bengal State Railway, the charge to Barrackpore, which is 14 miles, is Rs. 4-6, and to Ichapur, which is 17 miles, the charge is Rs. 5-5.

"The Government of India, under the contract with the East Indian Railway, has no power to fix rates. They can only fix maximum and minimum charges per mile for each class. This they have done, and the rates charged by the East Indian Railway are within the maxima and minima thus fixed."

COMPLAINTS AGAINST KABULIS

The Hon'ble BABU BHUPENDRA NATH BASU, in the absence of the Hon'ble Maulvi SERAJ-UL-ISLAM, KHAN BAHADUR, asked :—

(*a*) Has the attention of Government been called to an article in the *Tripura Hitoishi* of the 19th January, 1904, complaining of the conduct of bands of Kabulis who go about in the mufassal, under the pretence of selling cloth, and commit oppression upon the villagers?

(*b*) Will the Government be pleased to direct the local authorities to take the necessary action for the removal of the complaint, which seems to be general in almost all the districts of Bengal?

The Hon'ble MR. MACPHERSON replied:—

"The Lieutenant-Governor has seen the article to which the Hon'ble Member's question refers.

"The statements made therein are of a general nature on which it is not possible to base inquiry; nor is it stated whether complaints have been made to the local Magistrates.

"Many Kabuli traders travel through the districts, and it has before been reported that some of them are domineering and oppressive in their transactions. It is not possible to interfere with the movements of *bonâ-fide* traders unless they break the law. The standing orders contained in the Police Code impose upon Police Officers the duty of protecting the public from depredations of wandering gangs, whose object is plunder rather than legitimate trade."

THE BENGAL AND NORTH-WESTERN RAILWAY.

The Hon'ble MR. HORN, in continuation of the Answer given to the Question on this subject by the Hon'ble RAI TARINI PERSHAD, BAHADUR, at the Council Meeting of the 12th December, 1903, said:—

"A reference was made to the Consulting Engineer at Lucknow on the subject of the question that was asked by the Hon'ble Rai Tarini Pershad, Bahadur, at the Meeting of this Council, held on the 12th December, 1903, in connection with certain complaints which appeared in the *Bengalee* newspaper of the 21st October, 1903, regarding the management of the Bengal and North-Western Railway, and the following information has been obtained:—

(1) There are ladies' waiting-rooms at seven of the principal stations of the Bengal and North-Western Railway for 1st and 2nd class passengers; and at Muzaffarpur, Samastipur and Benares City for *purdahnasheen* ladies of all classes.

(2) Increased and improved accommodation has been and is being provided for third and intermediate class passengers in new and improved vehicles.

(3) The number of passenger trains has been increased.

(4) The vacuum brake has been fitted, and is in use on 50 locomotives, and is being fitted to the passenger stock of the fast trains.

(5) There has been no reduction of speed since the Sonepur accident; and the passenger train daily mileage has been increased and the mixed train mileage reduced."

The Council was then adjourned to Saturday, the 13th February, 1904, at 11 A.M.

FORECAST OF THE LATE COTTON CROP OF BENGAL, 1903-1904.

THE following note is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

The 4th February 1904.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Forecast of the Late Cotton Crop of Bengal, 1903-1904.

Character of the Season.—The late cotton crop, which is sown in autumn and is harvested at the beginning of summer, is grown in only fifteen districts of this Province, the most important being Saran (14,900 acres), Muzaffarpur (6,100 acres), and Cuttack (5,700 acres). It is not grown at all in Bengal Proper, except to a small extent in the districts

of Bankura and Midnapore. The rainfall in September was defective everywhere, except in Bankura, Midnapore, Balasore and Singhbhum. In October the rainfall was plentiful in all the late cotton districts, and in November light but scattered showers were obtained over the Province, except in the Patna and Bhagalpur Divisions. There has been no rain since then, and the season has not been altogether favourable for this crop.

2. *Area sown.*—Since the issue of the forecast of 1902-03 the Collectors of Monghyr and Bhagalpur have submitted revised figures for normal area. The total normal area under the late cotton crop in the whole Province is now estimated at 50,200 acres only. The area planted this year is estimated at only 39,900 acres against 42,000 acres sown last year.

3. *Character of the Crop.*—It will be seen from the statement appended to this note that out of the fifteen districts in the Province in which late cotton is grown, only two, viz., Bhagalpur and Cuttack, report an outturn of 100 per cent., in five the estimate varies from 80 to 96 per cent., and in six from 70 to 79 per cent., while in Muzaffarpur and Angul the crop is estimated at 52 and 50 per cent., respectively. According to the estimate of the District Officers the Provincial outturn is expected to be 76 per cent. of a normal crop, but there is reason to believe that the outturn has been under-estimated in some districts, and the crop that will in all probability be actually harvested is not likely to fall below 80 per cent. of a normal crop.

4. *Gross outturn.*—According to the district estimates the total yield of this crop will be 2,377,100lb as compared with 2,543,100lb of last year.

Offg. Director of Land Records and Agriculture, Bengal.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye-observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⌓, dew; p, passing temporary showers.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 859B.

NOTIFICATION.

MISCELLANEOUS REVENUE DEPARTMENT.

MISCELLANEOUS BRANCH.

THE HON'BLE MR. C. E. BUCKLAND, C.I.E.

Dated Calcutta, the 28th January 1904.

IN supersession of the rules published in the Board's Notification No. 1196B., dated the 11th June 1898, and with reference to clause 11 of the rules published in Notification by

the Government of Bengal No. 1225 S R., dated the 21st February 1898, the following revised rules are laid down to regulate the export of opium by sea from Calcutta:—

1. Opium may be exported by sea from the port of Calcutta if it has been purchased from the Government at a public sale held by the Board of Revenue, and is covered by a pass or certificate granted by the Board. A certificate is a document authorising the Collector of Customs to allow the shipment of the opium specified in it. The currency of a certificate is four days, exclusive of its date of issue, and exclusive of Sundays and Custom House holidays. No pass or certificate for the export of opium will be issued on the same day on which the opium has been sold.

2. Shipping bills for exportation of opium must be printed in red ink and presented at the Custom House in duplicate, accompanied by a certificate in such form as the Board may direct. The duplicate on which the pass is granted will be returned to the shipper to obtain delivery from the opium godowns, the original being forwarded to the gate officer on the wharf to expedite the passing of the opium out of the Custom House.

3. If any opium covered by a certificate is not removed from the Presidency Godowns within a period of four days from the date of the issue of the certificate, the holder of the certificate must, within 24 hours next after the expiry of the said period, apply to the Board of Revenue for a fresh certificate.

4. If any opium has been removed from the Presidency Godowns within the said period of four days, and has been passed out by the Customs authorities for export, but has not been shipped within the said period by reason of the opium being shut out from the ship in which it was intended to be shipped, or for any other reason, the shipper must, without delay, apply to the Board for a fresh certificate, and must, pending the issue of such certificate, either (*a*) return the opium to the Presidency Godowns, with the permission of the Collector of Customs, or (*b*) keep it, with the permission of the said Collector, under sealed hatches at a mooring ghat to be fixed by the Superintendent of the Calcutta Customs Preventive Service.

5. A charge of ten rupees shall be made for the services of the Customs Officer deputed to supervise the returning of opium to the Presidency Godowns, or the sealing of hatches, in pursuance of rule 4 of these rules.

6. (*a*) On ordinary working days, no treasury receipt in payment of opium, and no pass, will be accepted by the Board after 3-30 P.M., and no certificate will be granted after 4 P.M.

(*b*) On Saturdays, no receipt or pass will be accepted after 1-30 P.M., and no certificate granted after 2 P.M.

(*c*) A certificate is not transferable, and no one but the person named on the face of it by the Board will be entitled to export opium on it.

7. The certificates granted by the Board are to be returned to the Board, within thirty days, duly cancelled.

8. A fee of five rupees will be charged to a shipper on presentation of shipping bills after 4 P.M. on the day of clearance of the China steamer.

9. Opium intended for export, which is not cleared from the godowns before 4-30 P.M., shall be conveyed to the steamer or ship from the ghat opposite the opium godowns in covered cargo-boats with properly secured hatches.

10. As soon as the Intendant is aware that clearances will be made after 4-30 P.M., he shall make immediate report to the Collector of Customs, who will at once appoint one or more Preventive Officers, as may be necessary, to be in attendance at the ghat at which the cargo-boats lie. In his report the Intendant shall mention the probable number of chests which will be removed during the evening; and each day, as long as clearances are going on, he shall furnish the Collector of Customs with a similar report.

11. The Preventive Officer at the ghat shall examine all boat-notes and chests and see the latter placed in the hold of the cargo-boat. He shall then secure and seal, with a distinctive mark, the hatches or other openings or doors of the cargo-boat by which access may be had to the hold, before allowing the boat to proceed to the steamer or ship. He shall also make an entry in the boat-note, specifying that the hatches or other openings or doors have been sealed.

12. The Preventive Officer on board the receiving steamer or ship shall carefully examine the seals affixed to the hatches or other openings or doors of a cargo-boat laden with opium, as soon as the boat arrives alongside the vessel, and shall not allow the seals to be broken in any case until he is prepared to receive the opium on board, and to superintend the removal of the chests from the hold of the cargo-boat.

13. If it appears to the Preventive Officer on board the receiving vessel that the seals placed on the hatches or other openings or doors of a cargo-boat have been broken in transit, or have been in any way tampered with, he shall immediately bring the matter to the notice of the officer in charge of the vessel, and shall examine each chest carefully. If any theft of opium is discovered, the Preventive Officer shall make an immediate report to the River Police and to the Collector of Customs, mentioning at the same time the number of the cargo-boat and the name of the owner and *manjhi*.

14. A shipper who removes his chests of opium from the Government premises after 4-30 P.M. shall be required to pay a fee of two rupees for any number of chests up to twenty; three rupees for any number of chests above twenty and up to fifty; and five rupees for any larger number of chests.

15. The fees mentioned in rule 14 shall be realized by the Intendant before delivery of chests to the shippers, and shall be remitted daily by him to the Superintendent, Customs

Preventive Service, for the remuneration of Preventive Officers, who may be employed beyond the usual working hours.

16. The Presidency Opium Godowns will be kept open free of charge for the delivery of opium chests to shippers between the hours of 10-30 A.M. and 5 P.M. on ordinary working days, and between the hours of 8 A.M. and 7 P.M. on days (including Saturdays and gazetted holidays) preceding the sailing of steamers in which the shipment of opium has been notified. For delivery of opium chests outside these hours the Intendant shall require the payment of a fee of sixteen rupees in respect of each requisition, and a further fee of two annas in respect of each chest delivered. No. 513E.-B.

The following communication addressed by His Majesty's Secretary of State for Foreign Affairs to the Right Hon'ble St. John Brodrick, His Majesty's Secretary of State for India, is published for general information and guidance :—

"His Majesty being fully determined to observe the duties of neutrality during the existing state of war between Russia and Japan, and being, moreover, resolved to prevent, as far as possible, the use of His Majesty's harbours, ports,

and coasts and the waters within His Majesty's territorial jurisdiction in aid of the warlike purposes of either belligerent, has commanded me to communicate to you, for your guidance, the following rules which are to be treated and enforced as His Majesty's orders and directions :—

"RULE I.—During the continuance of the present state of war, all ships of war of either belligerent are prohibited from making use of any port or roadstead in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of His Majesty's Colonies or Foreign possessions or dependencies or of any waters, subject to the territorial jurisdiction of the British Crown as a station or place of resort for any warlike purpose or for the purpose of obtaining any facilities for warlike equipment. And no ship of war of either belligerent shall hereafter be permitted to leave any such port, roadstead, or waters from which any vessel of the other belligerent (whether the same shall be a ship of war or a merchant ship) shall have previously departed until after the expiration of at least twenty-four hours from the departure of such last mentioned vessel beyond the territorial jurisdiction of His Majesty.

"RULE II.—If there is now in any such port, roadstead, or waters, subject to territorial jurisdiction of the British Crown, any ship of war of either belligerent, such ship of war shall leave such port, roadstead, or waters within such time, not less than twenty-four hours, as shall be reasonable, having regard to all circumstances and the conditions of such ship as to repairs, provisions, or things necessary for the subsistence of her crew. And, if after the date hereof any ship of war of either belligerent shall enter any such port, roadstead, or waters, subject to the territorial jurisdiction of the British Crown, such ship shall depart and put to sea within twenty-four hours after her entrance into any such port, roadstead, or waters, except in case of stress of weather, or of her requiring provisions or things necessary for the subsistence of her crew, or repairs, in either of which cases the authorities of the port or of the nearest port (as the case may be) shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours without permitting her to take in supplies beyond what may be necessary for her immediate use, and no such vessel, which may have been allowed to remain within British waters for the purpose of repair, shall continue in any such port, roadstead, or waters for a longer period than twenty-four hours after her necessary repairs shall have been completed. Provided, nevertheless, that, in all cases in which there shall be any vessels (whether ships of war or merchant ships) of both the said belligerent parties in the same port, roadstead, or waters within the territorial jurisdiction of His Majesty, there shall be an interval of not less than twenty-four hours between the departure therefrom of any such vessel (whether a ship of war or merchantman) of the one belligerent and the subsequent departure therefrom of any ship of war of the other belligerent. And the time hereby limited for the departure of such ships of war respectively shall always in case of necessity be extended so far as may be requisite for giving effect to this proviso, but no further or otherwise.

"RULE III.—No ship of war of either belligerent shall hereafter be permitted, while in any port, roadstead, or waters, subject to territorial jurisdiction of His Majesty, to take in any supplies except provisions and such other things as may

be requisite for the subsistence of her crew and except so much coal only as may be sufficient to carry such vessel to the nearest port of her own country or to some nearer named neutral destination; and no coal shall be again supplied to any such ship of war in the same or any other port, roadstead, or waters, subject to the territorial jurisdiction of His Majesty, without special permission until after the expiration of three months from the time when such coal may have been last supplied to her within British waters as aforesaid.

"RULE IV.—Armed ships of either belligerent are interdicted from carrying prizes made by them into the ports, harbours, roadsteads, or waters of the United Kingdom, the Isle of Man, the Channel Islands, or any of His Majesty's Colonies or possessions abroad.

"The Governor or other chief authority of each of His Majesty's territories or possessions beyond the seas shall forthwith notify and publish the above rules."

The Governor-General in Council is pleased to direct that the Orders and Directions of His Majesty the King, Emperor of India, as contained in the above communication, are to be obeyed by all persons within the limits of His Majesty's territories and possessions in India.

NOTICE TO MARINERS—No. 56.

[First Publication.]

AUSTRALIA, SOUTH—SPENCER GULF.

Shoalwater point—A large buoy placed.

THE President, Marine Board, Port Adelaide, has given notice (No. 10 of 1903) that a large buoy painted black, with staff and diamond-shaped head, has been placed in 19 feet O.L.W., with Shoalwater Point bearing N. W. ½ W., distant two and a half miles.

Approximate position :—

Lat. 33° 42′ 30″ South.
Long. 137° 15′ 30″ East.

Mariners navigating Spencer Gulf north of Tipara Shoal are cautioned against making too free with the western shore, as between Franklin Harbor and point Lowly the shoal water extends in several places from one and a half (1½) miles to four (4) miles from the shore line, which in many places is very low and often distorted by mirage.

Vessels beating up or down the Gulf against strong head winds are therefore cautioned to keep about the middle of the Gulf, towards the Middle Bank Lightship, which may be passed close to. They may also anchor anywhere north of Tipara Shoal and await a slant of wind.

PRELIMINARY FORECAST OF THE WHEAT CROP OF BENGAL, 1903-1904.

THE following note is published for general information.

A. EARLE,

Secy. to the Govt. of Bengal.

The 12th February 1904.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Preliminary Forecast of the Wheat Crop of Bengal, 1903-1904.

Preliminary.—Wheat is grown chiefly in the Bihar districts, also in Murshidabad, Nadia, Rajshahi, Rangpur, Pabna, Hazaribagh, and Palamau.

2. *Character of the season.*—On the whole, the season has been favourable for this crop, as the soil had plenty of moisture during the sowing and also in the first part of the

growing season. In Chota Nagpur the rainfall was three times, and in Bihar about double the normal during the month of October. In November, that is, at the early part of the growing season of the crop, light showers were obtained all over the Province, except in Bihar and Bhagalpur Divisions, where the crop has suffered somewhat from drought at the latter part of the season.

3. *Area sown.*—The total normal area under wheat in the Province is now returned at 1,498,900 acres, against 1,507,400 acres reported last year. The reduction is due to a revision made by the District officers of Mymensingh, Ranchi, and Jalpaiguri. The area planted this year is estimated at 1,501,200 acres, against 1,417,000 acres sown last year.

4 *Character of the crop.*—From the annexed abstract of the district returns, it will be seen that of the nineteen large wheat-growing districts in the Province, only five (Pabna, Patna, Gaya, Malda and Hazaribagh) anticipate a normal; outturn; in six the outturn is estimated at from 90 to 98 per cent.; in four it varies between 80 and 89 per cent.; while in the remaining four districts, 63 to 76 per cent. of a normal crop is anticipated. According to the estimates of local officers, the outturn for the whole Province works up to an 89 per cent. crop; but considering that the failure of winter rice in many districts, specially in Bihar and Chota Nagpur Divisions, induced the cultivators to sow wheat in September and early in October, the dry weather that has prevailed since December will not materially affect the normal outturn, and I am inclined to raise the general outturn to 94 per cent., *i.e.*, 15 annas of a normal crop.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye-observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⌓, dew.

* The anemograph being under repair, the wind movement on any day from 9th to 13th February 1904 is given from a dial anemometer from 4 P.M. of the preceding day to 4 P.M. of that day.

SUIT No. 2 OF 1904.

NOTICE UNDER SECTION 30, C. P. C.

Mir Belat Ali, Mir Syed Ali, Mir Emamali, Matu Bibee, and Banu Bibee ... *Plaintiffs*,

vs.

Munshi Abdur Rahim, Karim Mistree, Kader Mistree, Abdul Mistree, Dooma Mistree, Shaikh Rabbani, Mathar Mina, Haje Nur ... ... *Defendants*.

THE plaintiffs in the above-named suit claim a certain 19 cottahs of land at Pilkhana, in the town of Salikha, on which a *masjid* and *darga* stand, as their private property in denial of the right of the Muhammadan community. They allege that they are adversely in possession of the land for over twelve years by letting it out to tenants and by realising rents from them; that they are all along receiving and appropriating to their own use the money which pilgrims pay to the *darga*, &c., during the *mélu* on the occasion of the *Muharrum*, and that they are all along paying the municipal tax. They further add that the land was never dedicated to Emam Sahib, and that it is only a portion of the entire plot of 5 bighas and 13 cottahs, the other portions of which have been sold to different persons by the plaintiffs. The Muhammadan public of Howrah, Salikha, Bantra, Ghushura, &c, are hereby informed of the suit in order that if any of them think fit they may come in and apply to be made defendants and defend the suit on or before the 9th March 1904. The plaintiffs have made the eight persons named above defendants as representing the Muhammadan public of Howrah and all its suburbs.

The Hon'ble BABU SALIGRAM SINGH.

QUESTIONS AND ANSWERS.

RAILWAY FERRY BETWEEN PALEZA AND MAROOFGANJ.

The Hon'ble BABU SALIGRAM SINGH asked:—

(*a*) Is the Government aware that the Bengal North-Western Railway Company have received the sanction of the Government of India to establish a ferry between Paleza and Maroofganj for the accommodation of railway traffic only, with permission to call at several points for the like accommodation of railway traffic on the south bank of the Ganges between Patna and Deegha?

(*b*) Is the Government aware that permission to the said Railway Company to establish such a ferry was previously refused by the Government of India after prolonged inquiries had been made into the rights of the matter and the opinion of the Hon'ble the Advocate-General of Bengal was taken on the subject, and that finally, in February, 1903, the Company were asked by the Government of India to arrange terms with the Patna Municipality, if they desired to establish the ferry in question?

(*c*) Has this Government any information as to the circumstances which may have transpired since then to induce the Government of India to rescind their own previous order on the subject and to grant permission to the said Railway Company to establish a ferry between Maroofganj and Patna? If not, will this Government be pleased to inquire from the Government of India?

(*d*) Is the Government aware that the establishment of this ferry by the Bengal North-Western Railway Company, during the continuance of the contract which the Magistrate of Patna, acting on behalf of the Government under the Ferries Act, entered into in 1903 with a private contractor for three years up to May, 1906, for the Patna group of ferries, of which Paleza is the most westerly landing-place on the north bank of the river and Maroofganj the most easterly on the south bank of the river, constitutes a breach of contract?

(*e*) Is the Government aware that the establishment of this ferry has already led to a diversion of traffic, that the ferry-contractor has already complained to the Magistrate of Patna to the effect that it will finally interfere with his ability to pay the sum for which the ferries were settled with him, viz., Rs. 29,000 annually, and that it is extremely improbable that it will ever hereafter be possible to settle these ferries, while the rival ferry of the Bengal North-Western Railway Company continues to ply, even for a fraction of the sum at which they are at present settled?

(*f*) Is the Government aware that about one-seventh of the income from the Patna group of ferries goes to the Patna Municipality, and that the loss of income from this source will seriously affect the finances of the Municipality and its established scheme of sanitary and other works?

(*g*) Will the Government be pleased to state what steps they propose to take in the matter with a view to safeguard the financial interest of the Patna Municipality against loss of income caused by the establishment of the aforesaid ferry by the Bengal North-Western Railway Company?

The Hon'ble MR. SHIRRES replied:—

"A reference has been made to the Government of India on the subject dealt with in the question of the Hon'ble Member. This Government is not at present in a position to give any information regarding the Railway Ferry between the Paleza and Maroofganj Ghâts."

THE BENGAL PUBLIC PARKS BILL.

The Hon'ble MR. BUCKLAND moved that the Report of the Select Committee on the Bill for the regulation of Public Parks in Bengal be taken into consideration.

The Motion was put and agreed to.

The Hon'ble MR. BUCKLAND also moved that the clauses of the Bill be considered in the form recommended by the Select Committee. He said:—

"The Report of the Committee, as Hon'ble Members will see, is a short one, and contains, I think, all that need be said on the amendments which the Select Committee have made.

"The first one of any importance is in clause 3, which was introduced on my own motion, because it had been brought to my notice that cases had occurred at the Botanical Gardens of disturbances and want of discipline and trouble with the public and the garden servants at the landing stage or pontoon, which we all doubtless know; and it seemed to be possible that in time to come the Local Government might require, for some reason or other, to include small portions of land in the areas of public parks which are not now contained in these parks. It seemed to me, therefore, that the proper time had now come for this opportunity to be taken for the Government to have legal power to make some slight alteration in the areas of gardens and parks, and in this particular case it is clear that the pontoon or landing stage at the Botanical Gardens should be included in that park.

"In section 4, clause (*4*), the list of particular purposes for which rules may be made has been amplified. I think it may now be claimed that those purposes have been dealt with exhaustively. I have thought over the matter, and nothing more has occurred to me as being necessary.

"We have inserted in sub-clause (*5*) the provision that all rules made under that section shall be published in the Calcutta Gazette, so that there shall be no idea of rules being made without the knowledge of the public.

In another clause the word 'detained' has been substituted for the word 'arrested,' so that there shall be no power of arresting or confining the body of an offender. All that is required is, that the person offending shall be detained until his case has been gone into. We have also provided that the minimum period for such detention should be reduced from 24 hours to 12 hours. As I have said before, the detention should be of very limited duration.

"We have also provided that the durwans and Superintendents of these parks shall be deemed to be public servants, so that they will thereby be vested with all the responsibilities attaching to public servants under the Indian Penal Code. The whole object of the Bill, as I explained before, is to take legal power for doing that which is now done by rules without legal power. One object is to keep the police out of these parks. It is necessary that the durwans and Superintendents, the people to whom we propose to give such authority as is required to keep order and discipline, should be vested with such powers which, for want of a better term, I may describe as *quasi*-police powers. I, therefore, commend this motion to you."

The Hon'ble BABU BHUPENDRA NATH BASU said:—"As one of those who opposed in some measure the Bill when it was introduced, I shall offer a few observations on the Bill. Since the Bill was introduced in this Council I have been satisfied that the necessity exists for the control of these parks, for some powers being vested in the authorities concerned to prevent breaches of discipline and the commission of offences, and for that purpose some legislation of the nature introduced should be passed. In the Select Committee we have tried to minimise the effect of those sections which would imperil the liberty of the people. The power of arrest has been taken off and the time of detention has been reduced from 24 hours, as originally introduced in Bill, to 12 hours. Moreover, an offender has been given the option, if he desires, of being taken at once to a Magistrate and not to the thana. alterations that have been made in Select Committee will, I hope, tak from the Bill its penal character and in its present shape make it ac to the public."

The Motion was then put and agreed to.

The Hon'ble MR. BUCKLAND also moved that the Bill as amended be passed. He said:—

"I do not think any further remarks are necessary from me on this motion."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"Before the motion is put to the Council, may I be permitted to make one suggestion? As has been rightly pointed out, the effect of this Bill is to confer *quasi*-police powers on park-durwans, and it has been apprehended by people that although this may be necessary, it may in some cases lead to hardship. The suggestion I beg to submit is, that the Government should call for reports of all cases of prosecutions under the Act, say within a period of the first two years after the commencement of this Act. This will enable the Government to see whether prosecutions are instituted needlessly, and whether they are carried on in the interests of justice or otherwise. If that is done, the Government will be able to see how the Act works in practice."

The Motion was then put and agreed to.

THE BENGAL TRAMWAYS AMENDMENT) BILL.

The Hon'ble MR. SHIRRES moved that the Bill to amend the Bengal Tramways Act, 1883, be passed. He said:—

"As you are aware the Bill is of the very simplest possible character. It is simply to introduce two words into the existing Bengal Tramways Act."

The Motion was put and agreed to.

THE BENGAL SETTLED ESTATES BILL.

The Hon'ble MR. BUCKLAND moved that the Report of the Select Committee on the Bill to facilitate the family settlement of estates in Bengal be taken into consideration. He said:—

"The task before us in Council with this Bill will not be so light or so easy as that just now performed in respect to the Parks Bill, but I hope that this Bill will not detain us really at any great length. I will, Sir, with your permission, at this stage make such remarks as I have to make in regard to the Bill.

"The Select Committee has altogether met nine times and has given, I think I may say, to this Bill the very fullest possible consideration. The papers will show us that the length of the Bill itself has been extended from 5½ to 12 pages, from 24 to 38 sections, and the Bill is now divided up into eight parts or chapters where formerly there were none. The Report of the Select Committee, which has been presented, extends to 58 paragraphs. I have particularly been anxious that nothing of any importance should be omitted from the Report of the Select Committee, so that the proceedings of the Committee might be well known to everybody and be in the hands of the Council before the Bill came before us in Meeting.

"In the Committee our principal object has been to develop the principles upon which the Bill is based and to provide for every detail as it presented itself to us in considering the clauses of the Bill, and to provide that, when ...islating for the conferring of privileges and unusual rights on probably a ... limited number of landholders, we should take care to provide that no ... was done to the rights of third persons who might be affected otherwise ...h a measure.

"The Bill has necessarily been largely affected by principles of English ... which the learned lawyers who were on the Select Committee—and to ... acknowledgments are due, as also to the Secretary of the Council, ... assistance they have rendered us in the consideration of the Bill—

are much more familiar than I am. I mention this fact as we had to follow, in settling the details, the principles of English law, and because there are in this Bill a number of terms, such as settlement, estate, tenant for life, and such like, which, if dealing with Indian law, would have very different meanings from those which such words must bear in such a Bill as that now before us.

"One main principle of the Bill is that the opportunity of settling their estates should be open to all landholders of whatever class, whatever race, whatever degree. The question very soon arose whether landholders who were affected by the Mitakshara law should have the privileges of this Bill, but we very soon came to the conclusion that the facilities with the privileges conferred by the Bill should be available to all classes, and that there was therefore no warrant for excluding persons under the Mitakshara law or Muhammadans or any other members of the community. Nor have we excluded, by the imposition of any financial limit, any of the poorer landholders, though I presume the Government of the day would not allow any landholders, except those in a distinctly substantial and wealthy position, to take advantage of such a measure.

"Another principle we have worked out and observed most carefully is that on no account should this Bill be regarded as an Incumbered Estates Bill. That is distinctly brought out in the Report of the Select Committee, which says:—'The Bill, as observed in paragraph 3 *ante*, is not an Incumbered Estates Bill, and the amendments just mentioned are designed in order to prevent its being applied to any estate which is insolvent or heavily indebted, while they will also meet objections taken by the Bengal Chamber of Commerce and the Calcutta Trades Association, with which we are in unison, as to the insufficiency of the Bill, as introduced in Council, to protect the interests of creditors.' We have, I should add, been guided throughout by the desire to protect the interests of third persons, whether secured or unsecured creditors, chiefly the secured creditors. But we do not propose to interfere with petty debts under, say, Rs. 500 in each case.

"Another principle which has been maintained is that stamp duty should be levied on the settlement of an estate to the extent of 25 *per cent.* on the annual income of the property to be settled, and that this stamp duty should be levied on all original settlements. Whenever a settlement is made for the first time, whether now directly the Bill is passed or in the future, the stamp duty on any original settlement is to be taken once for all. But there is provision for what I may call the renewal of these settlements, and, when any fresh settlement is made by renewal of the original settlement, there will only be a nominal stamp duty of something like Rs. 10. If the Members of Council will read attentively the Report of the Select Committee they will see that a fresh settlement means the renewal of the original settlement. But on the occasion of such a renewal (that is, by the renewal of the original settlement) it will be possible by a supplementary settlement to add to the original settlement, while on any supplementary settlement the stamp duty will have to be charged, as it would be in the case of an original settlement.

"Another principle which is perhaps not quite clearly brought out in the original Bill has been made more clear in the Bill now before us, as explained by the Report of the Select Committee. It is in regard to the meaning of the expression 'three generations.' The original intention of the Government was that the three generations to whom the settlement should apply should be the original settlor, his son, his grandson, and that the remainderman should be the fourth person. The Bill as originally drafted made the third person, the grandson of the original settlor, the remainderman. The Bill has now been altered to carry out the original intention, so that the settlement will remain for three generations, including the settlor himself, his son, and his grandson, the remainderman being the fourth person, that is (excluding the settlor) his son, grandson, and the remainderman. By the provisions of the Bill we have avoided that bugbear of English law, perpetuities. But by the system of renewal of settlement, provision has been made for continuity of settlement. It will always be open to a family to let the settlement expire if they so desire, if they find it is not satisfactory or does not answer their expectations.

Thus, while avoiding perpetuities, provision has been made for continuity of the settlement at distinct stages.

"These are, I think, the chief principles of the Bill which have been borne in mind and elaborated. We have in the elaboration of the Bill made provision for the application to be reduced to writing and to be published, and a declaration to be made by co-owners and co-sharers to the effect that they are willing to assent in the proposed settlement. We have provided, by way of giving greater publicity, that copies of all applications for settlement shall be sent to each creditor or co-owner or co-sharer, and we have provided that the notification in the Gazette shall set forth the application and details, and so on. At any rate every provision has been taken for giving publicity to what is material. We have also provided that, on the expiry of the settlement, if it is allowed to expire by the action or inaction of the family concerned, the rights of co-owners or co-sharers or their descendants shall be restored.

"We have also provided more elaborately than before for the maintenance of co-owners and co-sharers, if any, who have assented to the settlement of their sharers, and of all persons who at the time of the expiration of the settlement may be entitled to maintenance out of the estate, so that nobody can say that he or she was wronged by the settlor doing what he likes with his wealth, his superfluous property, which he has at his own disposal to settle as he likes.

"We have also made it quite clear, I think, by clause 19, [clause 20 of the Bill as passed], in view of the special stamp duty of 25 *per cent.* on settlements, that it is not intended to levy succession duties on property, debts or securities covered by a settlement. It has been therefore declared by clause 19, [clause 20 of the Bill as passed], that probate, letters of administration or a succession certificate need not be taken out in respect of such property, debts or securities, and we have added a sub-clause to declare that if any probate, any letters of administration or any succession certificate should purport to cover any such property, debts or securities, no Court-fee shall be levied in respect thereof.

"In clause 26 [clause 27 of the Bill as passed], we have provided that rents of a settled estate which were in arrear immediately before the death of a tenant for life shall belong to the next holder of the estate and not to the heirs, executors, administrators, or assigns of such tenant. This is a matter in which contention is very likely to arise, and it seems to us very proper that the Bill should provide for the occurrence of such arrears, and that these arrears arising from the estate should properly belong to the settled estate itself and should go to the proprietor or tenant for life for the time being, and that they should not be wafted away from the estate and placed at the disposal of the heirs of the deceased tenant for life.

"We have also provided in clause 27 [clause 28 of the Bill as passed], that the tenants for life should be debarred from alienating any part of a settled estate or the profits thereof for any period except of course in the cases provided for in clauses 28 and 29 of this Bill [clauses 29 and 30 of the Bill as passed]; for if alienations were allowed the objects of the Bill would be defeated.

"Clauses 28 and 29 [clauses 29 and 30 of the Bill as passed], provide for those cases in which the Committee were of opinion that sales and leases by tenants for life might be effected, but should be required to be with the sanction of the Civil Court in one case and the Local Government in the other. We have also, in giving the Civil Court power to sanction the sale of the settlement affected, provided that the proceeds of the sale are to come back to the *corpus* of the settlement. We have also made it more clear that the tenant for life should not benefit in the event of landed property being brought to sale for arrears of Government Land Revenue. It would have been very undesirable to allow a tenant for life to have the power of letting his estate, in default of payment of Government revenue, be put up for sale, so that he, the tenant for life, might pocket

the surplus proceeds of the sale, and the body of the settlement be thereby seriously injured. We have, therefore, made a special provision to prevent *benami* purchases on behalf of the tenant for life, so that, if the property does come for sale for arrears of Government revenue, the tenant for life shall not benefit by a *benami* purchase being affected in his name.

"The last clause is also new. It 'saves the right of secured creditors whose incumbrances have not been set forth by an applicant for settlement, or who may not have assented to conditions inserted in an instrument of settlement for the continuance or discharge of their incumbrances.' Of course it is intended that all the incumbrances shall be set forth, and that nothing shall be done without the consent of the creditors for the continuance or discharge of their incumbrances, but supposing that any debts or incumbrances should happen to be overlooked, this provision of law to the Bill will save any rights of secured creditors.

"I think I have mentioned quite at sufficient length the main changes that have been introduced by the Select Committee in their Report, which I now commend to the Council. A genuine effort has been made, I think, to meet every possible case that may occur. No doubt it is legislation of an unusual character, but the policy of it has been long ago settled and has been accepted by this Council. Our object has been, as I say, to provide for every contingency that suggests itself, and I think those who have studied the Bill will see that the Report of the Select Committee fully explains all the changes we have made in this direction."

The Hon'ble MR. WOODROFFE said:—"This Bill has been made the subject of some hostile criticism. It has been said in the first place that the proper procedure was to bring in a private Bill such as was passed for Sir Jamsetjee Jeejeebhoy's estate; secondly, it was said that it offends against Hindu law in that it legalises the rights of unborn persons and members of joint Mitakshara families; thirdly, that it offends against the law of perpetuity, that is, is retrograde in its character and that it withdraws property from the domain of commerce.

"I had the honour of being a Member of the second Select Committee to which this Bill was referred. I found that the Bill had been introduced with due authority into the Council, and that the principles of the Bill had been accepted when it was referred to the consideration of the first Select Committee that was appointed to consider it. Speaking for myself, perhaps I should have been in favour of a separate Bill for certain specified persons being introduced; but finding that the question had passed, so far as the Select Committee were concerned, beyond the range of discussion, we proceeded to consider the Bill upon the lines upon which it was framed and submitted to Council.

"It is true that it does legalize, in cases which come under it, provisions respecting rights of unborn persons, and it is also true that, to a certain extent, it withdraws property from the ordinary domain of commerce, but your Select Committee, bearing in mind the fact that for motives of policy it was thought fit that there should be such a Bill introduced, considered that there was no reasonable objection to the conferring of rights upon unborn persons, and other persons whom it might be desirable to include in and by the settlements therein provided for.

"As regards the question of withdrawing property from the ordinary domains of commerce, the Council will observe that by the provisions of this Bill there is power given to the settlor or tenant for life to grant putnies and other permanent tenures as well as leases for long terms which are alienable and can without restraint be dealt with by the grantees of such tenures or leases and their assignees.

"There is no doubt that the Bill is somewhat complicated by the fact that the members of a Mitakshara family may be brought within the scope of this Bill, but that principle also, I found, had been adopted, and although the question was raised in Select Committee, I did not think fit to press the objection on that score.

"As the Hon'ble Member in charge of the Bill has justly observed, the labours of the Select Committee were devoted mainly to hedging round applications for settlement with such restrictions, and making them subject to such conditions as would be least likely to cause injury to third persons. This has been the principle which animated the Committee in the changes and alterations made. I think the Committee has succeeded in these respects, and they have, I may add, specially taken into consideration the representation made by the Chamber of Commerce, the Trades Association, and other parties whose objections were laid before us."

The Hon'ble BABU SALIGRAM SINGH said :—"The numerous additions made in the Bill by the Select Committee required that this matter should be considered fully by the public before it is passed into law. Specially the persons who are concerned in the Bill ought to know what changes have been made by the Select Committee. Therefore I ask the Council to consider whether or not more time should be given for the consideration of this measure before it is finally passed into law. The Bill was published in the Calcutta Gazette on the 3rd February. It was brought into Council on the 4th February, and it has been admitted that there were considerable alterations in the Bill made by the Select Committee. Therefore, I would ask your Honour to allow it to stand over for further consideration, and that, if possible, the amended Bill should be circulated to the different Associations. If this is not possible, I hope that, at any rate, the Council will agree to the consideration of the Bill being adjourned for a short time."

The Hon'ble MR. BUCKLAND said :—"It seems to me that the further postponement of this matter is entirely uncalled for and quite unnecessary. As I explained just now, the object of the Select Committee has been to develop the principles of the Bill. One point was whether this Bill should be applicable to all classes of the community, and the development has been in that direction, viz., to make it available to all classes of the community and to provide in every possible way for estates being properly preserved and properly regarded, and the Bill has received every consideration in detail.

"The effect of the postponement of this Bill would be to require its republication. I do not know how long the postponement would be asked for. We do not know what would happen in such an event. We do not know what new hares might be started. We do not know whether, when the Bill came up again at the last moment, we might not have further pleas for the Bill being postponed.

"There is no necessity for any single individual taking advantage of this Bill unless he is so inclined. There is no obligation for any person, if he does not like the terms of the Bill, to apply for a settlement under it.

"I entirely object to the plea for postponement being brought forward, I would not say at the eleventh hour, but at the very last moment. The Hon'ble Member will allow that this Bill was published ten days' ago, according to the recognised procedure. The Bill has been before the Council for six months. Ten days ago it was put into the Gazette, and the Hon'ble Member and his constituents might well have sent in their amendments within the first few days, certainly in time. But at the very last moment he comes forward with his plea for postponing it. It makes legislation almost impossible in this Council. Here we are, having all worked ourselves up to the occasion. We all know what there is in the Bill. The Members of the Select Committee have the whole of the subject at their fingers' tips, and surely the Members of the Select Committee may be trusted to safeguard the rights of the public, as well as the Hon'ble Member and his constituents? Now what does this postponement entail? It entails the Bill being put off for two months or, probably, three months. We may disperse and anything may happen to cause further delay. Here is this Bill absolutely ready to be passed, and we are now asked to postpone it. This is not fair to the Council; it is not fair to the Select Committee, and it is not fair to the Member in charge."

The Hon'ble THE PRESIDENT said:—"I do not know whether the Hon'ble Member desires to press his proposal for adjournment. The Bill has been before the public since July last year."

The Hon'ble BABU SALIGRAM SINGH said:—"On hearing what the Hon'ble Member in charge of the Bill has said, I desire to withdraw my motion."

The Motion was then put and agreed to.

The Hon'ble MR. BUCKLAND also moved that the clauses of the Bill be considered in the form recommended by the Select Committee. He said:—

"It is hardly necessary for me to take up any further time of the Council by adding any remarks on this motion."

The Motion was put and agreed to.

Clause 7.

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA moved that in clause 7 (*a*), after the word "application" the following be inserted, namely:—

[except the particulars inserted therein in pursuance of clause (*b*) of section 4.]

He said:—"Section 4 provides that every application for settlement must contain certain particulars, namely:—

(*a*) a description of the estate, sufficient for its identification;

(*b*) a statement of the income yielded annually by the property comprised in the estate, and the revenue, rates and taxes due to the Government, or any local authority annually in respect of such property; and

(*c*) a list giving a full and complete enumeration and description of all incumbrances held by secured and unsecured creditors, respectively, and enforceable against the applicant or the estate, with the name and address of each such creditor, and a correct statement of the amount due to each such creditor.

"Section 5 goes on to provide:—

If any estate in respect of which an application is made under section 3 belongs to—

(*a*) a joint Hindu family, or

(*b*) co-sharers,

the application must be accompanied by—

(*i*) a sworn declaration by the applicant,—

in case (*a*) that he is the *karta* or managing member of the family, or

in case (*b*), that he is a principal share holder in the estate and has, by custom or with the consent of his co-sharers, as the case may be, the sole right of management over the estate; and

(*ii*) a sworn declaration in case (*a*), by the other co-owners or, in case (*b*), by the other co-sharers, that they are willing to consent to the estate being settled under this Act.

"My suggestion is that the details contained in section 4, sub-section (*2*), clause (*b*), relating to the income yielded annually by the property comprised in the estate and revenue and taxes should not be published. Apparently this information is not likely to be useful to anybody, and, so far as creditors are concerned, copies of the application and declaration which accompany it are to be sent to each creditor named in the schedule. In my opinion the publication of these details might sometimes be embarrassing to the settlor, and I would therefore suggest that the words which I have proposed should be added, might be put into the section."

The Hon'ble MR. BUCKLAND said:—"I have no objection to the amendment."

The Hon'ble MR. WOODROFFE said:—"The proposed amendment should be accepted."

The Motion was then put and agreed to.

Clause 5.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, moved that in clause 5 (*i*), after sub-clause (*ii*), the following be inserted, namely:—

and (*iii*) a draft of the proposed instrument of settlement.

He said:—"I must confess that the amendment I now move and certain others that I will ask liberty to move later are not amongst the suggestions I made when the Select Committee, of which I had the honour of being a Member, were considering the Bill. These suggestions did not strike me then, but only afterwards. I also must say that the Select Committee took considerable pains and devoted much time in considering this important Bill, and that I am a little too late now in putting forward my amendments, but they are new and appear to me to be necessary. Having regard to the fact that sworn declarations by co-sharers and co-owners in regard to matters affecting their respective interests have to be made by them, it is natural to expect that they would hesitate to signify consent and to make declarations without knowing the terms and conditions under which a settlement is in contemplation. If copies of the draft instrument of settlement accompany the application, they will be in a position to know and to decide whether they have any objection to the settlement as proposed or not. If a copy of the draft settlement as proposed is to be sent with their declarations to each co-sharer or co-owner, then it is necessary that a draft settlement should also be sent to the Local Government when an application is made for a settlement under this Act."

The Hon'ble MR. WOODROFFE said:—"This amendment is not unworthy of consideration. As I understand the Hon'ble Member, he desires that a draft of the proposed instrument of settlement should accompany the application in order that the persons concerned including the creditors as well as the co-sharers and co-owners, should know the exact position of affairs. I would therefore support the amendment."

The Hon'ble MR. BUCKLAND said:—"I have no objection to offer to the amendment. The Hon'ble Member would have been more regular in procedure if he had given us longer notice. It was also open to him in the Select Committee, of which he was a Member, to have brought this matter forward, but he has told us that it did not occur to him at the time, and there is nothing more to be said about it. We want to make the Bill as complete as possible, and for this reason I will not stand in the way at all."

The Motion was then put and agreed to.

Clause 7.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved that in line 3 of the second paragraph of clause 7, after the words "in the application and," the following be inserted, namely:—

shall also send a copy of the said application and declarations and a copy of the draft of the proposed instrument of settlement.

He said:—"My former amendment having been carried, this one follows as a matter of course. I would not be justified in taking up the time of the Council with any lengthy remarks in support of it. The co-owner or co-sharer ought to be furnished with a copy of the draft settlement, as I have already said. It is for this reason that I proposed the last amendment moved by me, and that has been carried. I consider it now necessary to move this amendment."

The Hon'ble MR. WOODROFFE by way of amendment proposed that in line 2 of the second paragraph of clause 7, after the words "which accompanied it" the following be inserted, namely:—

as also a copy of the draft of the proposed instrument of settlement.

The Hon'ble THE PRESIDENT said:—"Would it not be better if it was put in this way:—

The Local Government shall send a copy of the application, and of the declarations which accompanied it, and also a copy of the draft of the proposed instrument of settlement to each creditor who is named in the application, and to each person who has made a declaration in pursuance of clause (*ii*) of section 5.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—"I gladly accept the alteration suggested by the Hon'ble the Advocate-General."

The Hon'ble MR. BUCKLAND said:—"I have no objection to offer to this amendment."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I think the form suggested by the Hon'ble the Advocate-General is better, as being more comprehensive, than the amendment proposed by the Hon'ble Rai Tarini Pershad, Bahadur. There is no reason why a copy of the draft of the proposed instrument of settlement should not be sent as well to the creditors. I am entirely in favour of the form of the amendment as suggested by the Advocate-General."

The Hon'ble MR. BUCKLAND said:—"Do I understand the Hon'ble the AdvocateGeneral to mean that these words should come in after the words 'accompanied it'?"

The Hon'ble MR. WOODROFFE:—"Yes."

The Hon'ble THE PRESIDENT said:—"The proposal is that a copy of the draft instrument of settlement should be sent not only to those who are interested in the estate, but to every creditor of the settlor."

The Motion was then put in the amended form and carried.

Clause 8.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved that at the end of clause 8 (*2*) the following be inserted, namely:—

and the Civil Court shall, in dealing with any such reference, follow the procedure prescribed in the Code of Civil Procedure for the trial of suits, so far as the same may be applicable.

He said:—"The Civil Court, in determining the matter in dispute referred to it, shall follow the procedure laid down in the Code of Civil Procedure, so far as the same may be applicable. The reason for the amendment is obvious."

The Hon'ble MR. BUCKLAND said:—"I have no objection to this amendment."

The Motion was put and agreed to.

Clause 10.

The Hon'ble RAI TARINI PERSHAD, Bahadur, also moved that after clause 10 (*3*) the following be inserted, namely:—

(*4*) Any settlement made under the foregoing provisions of this Act may provide that any tenant for life may, with the previous sanction of the Local Government, by written instrument, surrender his interest under the settlement in favour of the next tenant for life.

He said:—"I think provision like this is necessary; cases of voluntary surrenders of property by the proprietors for the time being occur in Hindu as well as in Muhammadan families in this country. There are great many instances of cases in which surrenders of large properties have been made in favour of near relations when they determine upon leaving the cares of the world and take to pilgrimage and settle themselves in holy places for the rest of their lives, surrendering their properties to their dearest and nearest. The provision suggested will meet all such cases."

The Hon'ble MR. WOODROFFE said:—"I do not think there is any objection to giving this power of surrender. The circumstances under which it may be exercised are of a somewhat exceptional character, still if a tenant for life does desire to surrender in favour of the next tenant for life, I for one see no objection to the introduction of a clause to that effect."

The Hon'ble MR. BUCKLAND said:—"I see no objection to this amendment, but I should like to have an explanation from the Hon'ble Member who moved it. I suppose it is not intended by him that the settlement should in any way be extended by the operation of this provision."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said:—"No, I do not wish to extend it in any way."

The Hon'ble MR. BUCKLAND continued:—"If a settlement is made by A for the three lives of A, B and C, and, if A resigns the settlement in favour of B, it does not mean thereby that a fourth person should be included. I would ask the advice of the Hon'ble the Advocate-General whether, by accepting this amendment, instead of the settlor A who surrenders any other person could be introduced into the settlement beyond those who are included in the settlement, and that the surrender of the settlor's interest does not mean that another person is brought into the settlement."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, in reply said:—"I do not wish to introduce any one into it, whether it be the third, fourth or the fifth person. I simply asked that a settlor who wishes to leave the cares of the world and pass the rest of his life in pilgrimage, in the case of a Muhammadan to Mecca or Medina, and in the case of a Hindu to Benares and other places, may have power to give his interest in his property to his nearest and dearest."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"It would be safer if some such words as these were added to the clause proposed by my hon'ble friend to my left:—

Provided nothing in the section shall affect the provision of section 10, sub-section 2, clause (*i*).

"Of course the object we have in view is, that it may not be taken as continuous for the purpose of extending the settlement perpetually. Section 10, sub-section (*2*), provides that after the life of the third tenant for life, the eldest or the only son shall hold the estate absolutely. If we do not insert some such provision as the one I have mentioned, it may enable the settlement to go on perpetually."

The Hon'ble THE PRESIDENT said:—"Would not that be met by the definition given in section 2? If you look at what the Hon'ble Member proposes in the item of business No. 11*, taken in connection with this definition, that meets the whole case."

The Hon'ble MR. WOODROFFE said:—"The definition of 'second tenant for life' refers only to the person who, under the terms of the settlement, has to take the settled estates on the death of the first tenant for life. It will have to be amended so as to include the case of one who takes on surrender. So amended, it will safeguard the question which was raised by the Hon'ble Member in charge of the Bill."

The Hon'ble THE PRESIDENT said:—"Then the Hon'ble Rai Tarini Pershad, Bahadur, proposes in the next item of business that an instrument of surrender shall not take effect unless it has been approved by the Local Government before such execution, and the effect of such approval having been given, you certify that instrument by one of the Secretaries of the Local Government."

The original Motion was then put and agreed to.

* *i.e.* the amendment of clause 2 proposed by the Hon'bl RAI TARINI PARSHAD, BAHADUR.

Clause 2.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved—

(*1*) that at the end of sub-clause (*e*) of clause 2 the following be added, namely:—

or on the surrender by the first tenant for life of his interest under the settlement;

(*2*) that at the end of sub-clause (*f*) of clause 2 the following be added, namely:—

or on the surrender by the second tenant for life of his interest under the settlement.

He said:—"The reason of this amendment I have already given."

The Hon'ble MR. WOODROFFE, by way of amendment, proposed—

(*1*) that at the end of sub-clause (*e*) of clause 2 the following be added, namely:—

or who on the surrender by the first tenant for life takes his interest under the settlement;

(*2*) that at the end of sub-clause (*f*) of clause 2 the following be added, namely:—

or who on the surrender by the second tenant for life takes his interest under the settlement.

He said:—"I could not catch whether the hon'ble mover of the amendment accepts my amendment."

The Hon'ble THE PRESIDENT said:—"The Hon'ble Member read it as in the paper."

The Motion was then put in the amended form and agreed to.

New clause.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved that after clause 18 the following be inserted, namely:—

Approval, stamping and registration of instruments of surrender.

*18A. (*1*) No instrument of surrender referred to in sub-section (*4*) of section 10 shall take effect unless it—

(*a*) is of a non-testamentary character;

(*b*) is attested by two or more witnesses;

(*c*) has been approved by the Local Government before execution, and the fact of such approval having been given is certified on the instrument by one of the Secretaries to the Local Government;

(*d*) is stamped in accordance with the provisions of the Indian Stamp Act, of 1899, and

(*e*) is registered within three months after the said approval has been certified as aforesaid.

(*2*) Subject to the foregoing provisions of this section, every such instrument shall take effect from the date of its execution.

He said:—"The matter of surrender vitally affects the interest of all concerned. It is therefore desirable that before it is made, the desired effect of the formalities suggested should be gone through."

The Hon'ble MR. MACPHERSON said:—"I would ask the Hon'ble the Advocate-General what would be the effect of this clause in case of the refusal of the Local Government to approve a surrender? Supposing that a tenant for life of a settled estate should surrender, and the Local Government did not approve of the surrender, what would be the position of the administration of the estate?"

* Clause 19 of the Bill as passed.

The Hon'ble MR. WOODROFFE said:—"It seems to me that if the Local Government does not approve of the surrender, it takes no effect at all; it is ineffectual. I understand that the clause proposed to be added is that instrument shall not take effect unless it has been approved by the Local Government. If therefore the Local Government does not approve of it, the instrument of surrender is ineffectual."

The Hon'ble MR. MACPHERSON said:—"What would happen if it was pronounced to be ineffectual, and the tenant for life notwithstanding should insist upon the surrender?"

The Hon'ble MR. GUPTA said:—"I think he must take the approval of the Local Government before he executes the surrender, and if the approval is refused, then everything must remain as it was before. In this connection I beg to say that there is no objection to this amendment, but I may suggest that the new section may be numbered 10 and the numbers of the following sections altered accordingly."

The Hon'ble MR. WOODROFFE said:—"The question raised is met by the amendment of clause 10 which has been already passed. The surrender must be made with the previous sanction of the Local Government. There cannot be a surrender without previous sanction. It seems to me that it follows from the power already taken that it is sufficiently safeguarded because, among other things, it must be approved by the Local Government before any one can effect such surrender and the fact of such previous sanction must be certified by the Secretary of the Local Government on the instrument."

The Motion was then put and agreed to.

Clause 23.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, also moved that at the end of clause 23 [clause 24 of the Bill as passed], the following be added, namely:—

(5) The provisions of section 21 shall apply to every such instrument.

He said:—"The notification of the fact of revocation of the instrument of settlement appears to be necessary in the interest of all concerned. Section 21 [clause 22 of the Bill as passed], provides for notification of the purport of the instrument of settlement. I think it necessary that some provision for notification should be made in cases of revocation also, so that all persons who shall have to deal with the settled estate may be in a position to know the fact of such revocation. For instance, clause 25 [clause 26 of the Bill as passed], provides that when any instrument of settlement is revoked under section 23 [clause 24 of the Bill as passed], the rights of all persons having incumbrances upon the estate shall revive. But the Bill does not provide that any information should be given to such persons. A general notification in the Calcutta Gazette will meet the object, and in that view of the matter a provision for notification becomes a matter of necessity. I may mention that by clause 24 [clause 25 of the Bill as passed], a notification of cancellation and amendment has been provided for, but it is only in regard to cases of revocation that such notification is wanting."

The Hon'ble MR. WOODROFFE said:—"I venture to think that this amendment is not framed in a very convenient form, and that the object the hon'ble mover has in view would hardly be served by maintaining section 21 [clause 22 of the Bill as passed], as it stands. I therefore propose that in clause 21 [clause 22 of the Bill as passed], sub-clause (*1*), after the word 'settlement' the words 'or revocation of settlement' be inserted."

The Hon'ble RAI TARINI PERSHAD, BAHADUR, in reply said:—"I shall gladly accept the further amendment proposed by the Hon'ble the Advocate-General. It will be better if this be included in section 21 [clause 22 of the Bill as passed]."

The Hon'ble DR. ASUTOSH MUKHOPADHYAYA said:—"I have been anticipated by the Hon'ble the Advocate-General, except on one point. I was

going to suggest that the words 'or surrender of settlement' be also added to clause 21 [clause 22 of the Bill as passed], sub-clause (*1*)."

The Hon'ble BABU SALIGRAM SINGH said:—"I beg to point out that a revocation is provided for under section 23 [clause 24 of the Bill as passed], which comes after section 21 [clause 22 of the Bill as passed], in which there is no mention of any revocation."

The Hon'ble MR. WOODROFFE said:—"I do not think that this matters. The Act will have to be read as a whole. There can be no objection to making it perfectly clear by adding the words 'or revocation or surrender.' Then the whole section, incorporating the further amendment proposed by the Hon'ble Dr. Asutosh Mukhopadhyaya, would run as follows:—

*21 (*1*). When any instrument of settlement or surrender of settlement or revocation of settlement is registered, etc.

The Motion was then put in the amended form and agreed to.

Re-numbering of clauses.

The Hon'ble MR. BUCKLAND moved that the Secretary be directed to re-number the clauses of the Bill in consecutive order, and to make corresponding alterations in all cross-references thereto. He said:—

"As your Honour is aware, we have just inserted a new clause 18A, and some little alterations of this sort are necessary."

The Motion was put and agreed to.

Passing of Bill.

The Hon'ble MR. BUCKLAND then moved that the Bill as amended be passed. He said:—

"I do not think any speech is required from me on this occasion. We have done our best to carry out the policy of the Government and to meet the wishes of the landholders of Bengal. I certainly hope that a certain number of them will come forward and take advantage of the Act, when it has received the sanction of the Governor General in Council.

"I beg once more to tender my sincere acknowledgments to the Hon'ble the Advocate-General, to the Hon'ble Dr. Asutosh Mukhopadhyaya, to the Secretary of the Council, and to the other gentlemen who, in the Select Committee, have given us all possible assistance in our labours, and to the Council for having agreed to the clauses of the Bill."

The Hon'ble BABU BHUPENDRA NATH BASU said:—"I do not think that I ought to give a silent vote on this matter. The Bill has been generally received with approbation, but it has also met with severe and adverse criticism in some quarters. Men with whom I have been associated in public life and for whose opinions I have the highest respect have found fault both with the principle and the policy embodied in the Bill. They have challenged the principle laid down in the Bill as contravening well-known and well-established principles of Hindu and Muhammadan Law. They have challenged the policy creating perpetuities as retrograde and reactionary.

"That the Bill contravenes the law as now interpreted and understood may be fully conceded. Hindu law as at present administered, and I believe Muhammadan law also, are very far from what these laws were meant to be by the ancient Lawgivers, and we are often in a state of bewilderment between the text writers and the law as at present understood. Both Hindu and Muhammadan Lawyers complain that the interpretation of their respective laws by the Courts of India and the Court of Appeal in England have taken them into channels never contemplated by their ancient Lawgivers. I do not refer to those matters by way of justification of the principle of the Bill, but simply by way of illustration to show that even the unchangeable East has had to change with the changing times.

* Clause 22 of the Bill as passed.

"The question is, whether the change sought to be introduced by the Bill is one that commends itself to our judgment and approbation. If it were intended to apply to the general population, my answer would be an emphatic No. It would no doubt be much simpler and more useful if we were given the power of making gifts to persons unborn on the same lines as are laid down in section 101 of the Indian Succession Act. We find every day the difficulty of making suitable provision where a young man of property is going to marry and settle down in life; how difficult it is to provide safeguards for the protection of his property for the benefit of himself and his family. He is exposed to all the temptations which a western civilization has introduced, without the safeguards which protect the youth of the West. But because the Government has not gone as far as we should wish it to go, that is no ground why we should oppose or reject this small measure if it brings relief even to a few families.

"I am aware that jurists and political economists and sociologists have condemned the creation of perpetuities which aim at the formation of a class who neither toil nor spin and who are *kept up* for ostentation and display. I do not propose at this stage to discuss or controvert the propositions that have been advanced against perpetuities. To us in India the uselessness of mere display and show is no new doctrine: it is the doctrine alike of the Vedantists and the Buddhists. But it would be idle to say that great houses serve no other purpose than that of mere show. They stand out, bold landmarks, amidst the shifting sands of time. They link the past with the present and hand down the present to the future. They serve as rallying grounds for all that conserves the social fabric and all that elevates life above the commonplace. Even under the disintegrating influence of our present laws some old houses have withstood the inroads of time, and traditions of the past have clung round them, keeping green memories which, though they are the dreams of to-day, may be realities of the morrow.

"The law, as it now prevails, distributing the property among all the sons, renders it impossible for any family to continue in a position of influence for any length of time. The sons, relying upon all of them getting a share in the patrimony, are apt to let their natural faculties go to rust. They lack the incentive of want and the stimulus of struggle for existence. The result is gradual impoverishment, general deterioration and consequent misery. What is the career open to a young man of wealth in this country? He has not the advantages of an English youth whose horizon is as wide as the bounding circle of the earth, to whom is accessible a career in the Army, the Navy, the Houses of Parliament, the diplomatic service or the Colonies and dependencies of England. The scions of our aristocracy can have no career in the profession of Law or Medicine whose early stages are repellant even to humbler individuals. They cannot enter the public services in competition with men whose memory and intellect are sharpened by hunger and want, and many a life of brilliant promise unable to find an outlet loses itself in the quick-sands of dissipation and extravagance.

"If the Bill is passed into law, the younger sons of families who may come under its purview will know that they will have no portion in the fortune of their father; that they must make the best use of the opportunities to equip themselves for the battle of life, opportunities which are denied to the poor; and they will constitute a middle class who will form the real backbone of the country; great houses may rise and continue in undiminished influence, potent for much good to their country.

"In the earnest anticipation that the Bill will fulfil its promise, that it will serve the end which its framers have in view, that it will perpetuate ancient houses, that it will create a substantial middle class, I vote for it with a safe and clear conscience."

The Motion was put and agreed to.

The Council was then adjourned to a day to be notified hereafter.

Vessels beating up or down the Gulf against strong head winds are therefore cautioned to keep about the middle of the Gulf, towards the Middle Bank Lightship, which may be passed close to. They may also anchor anywhere north of Tipara Shoal and await a slant of wind.

PRELIMINARY FORECAST OF THE OIL-SEED CROPS OF BENGAL, 1903-1904.

THE following note is published for general information.

A. EARLE,

Secy. to the Govt. of Bengal.

The 16th February 1904.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Preliminary Forecast of the Oil-seed Crops of Bengal, 1903-1904.

Explanatory.—This forecast furnishes preliminary estimates of the area and outturn of the different kinds of oil-seeds, both *bhadoi* and *rabi*, grown in these Provinces.

The chief oil-seed crops of the Province are mustard (white and brown), rape, sesamum (*til*), linseed, castor, niger

oil-seed (*sirguja*), and eruca sativa (*tárámani*). Mustard and rape, which are not as yet distinguished in the returns, occupy about 50 per cent. of the total area under oil-seeds; linseed occupies about 25 per cent., and the remaining area is occupied by the other oil-seed crops. The bulk of the mustard and rape is cultivated in the districts of the Rajshahi Division, also in Mymensingh, Dacca, Purnea and the Sonthal Parganas. Linseed is grown chiefly in Darbhanga, Saran, Champaran, Gaya and Nadia. *Til* or gingelly is grown principally in Jessore, Bogra, Pabna, Dacca, Mymensingh, Backergunge, Tippera, Noakhali, Midnapore, Gaya, Angul, Hazaribagh and Palamau.

2. *Character of the Season.*—The season has been generally favourable to all the oil-seed crops, except *bhadoi til.* The *bhadoi* castor does not require a heavy rainfall to support it. The *rabi* oil-seeds were all benefited by the moisture in the ground due to late heavy rainfall in October. In November, light showers were obtained in most districts, except in those of the Patna and Bhagalpur Divisions. In December, there was practically no rain; but the light January showers obtained in Bihar, parts of North Bengal and in Chota Nagpur, helped the oil-seed crops and *rabi* crops generally.

3. *Area sown.*—Since the publication of the final forecast of the oil-seed crops of 1902-1903, the District Officers of the 24-Parganas, Mymensingh, Tippera and Ranchi have submitted revised figures for normal area. The total normal area under different oil-seed crops in the whole Province is now estimated at 3,854,600 acres. The area actually sown this year is returned at 3,824,400 against 3,657,700 acres estimated to have been sown last year.

4. *Character of the Crop.*—As will appear from district returns appended to this forecast, seven districts, viz., Birbhum, Darjeeling, Pabna, Dacca, Purnea, Malda and Gaya, have reported a normal crop; twenty districts, a 90 to 99 per cent. crop; ten districts, an 80 to 89 per cent. crop; seven districts, a 70 to 79 per cent. crop; and Nadia, a 58 per cent. crop. According to the district estimates, the outturn of the Province, as a whole, amounts to 90 per cent. of an average crop. But as sufficient allowance has not been made in many districts for the favourable nature of the season and the benefit derived from the January showers, I estimate the general outturn at 94 per cent., *i.e.*, at 15 annas of a normal crop.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM FOR THE MONTH OF JANUARY 1904.

WEATHER in Bengal during January was more continuously settled than is usual even in the most settled season of the year. Rainfall was almost nil in the southern districts, and towards the north, where showers were more general, the average fall for the month was largely in defect. In Bihar the fall was less than half, and in North Bengal less than a third of the normal amount. Judged, therefore, by the absence of rainfall and cloud, weather was exceptionally fine.

But while according to ordinary standards weather was fine and settled, there have been peculiarities which show that the abnormal conditions which have been prevalent for the past year or two have not yet passed away. One of these peculiarities is the absence of the ordinary cold-weather disturbance, connected usually with a shallow depression, which crosses India from the west, and in the course of its eastward movement causes cloudy, and less frequently showery, weather in Bengal. There was no such disturbance in January.

On the other hand, early in January the weather in Bengal was still to a certain extent influenced by disturbances which developed in the south of the Bay and caused heavy rainfall in Madras. Rainfall in the early days of the month extended northwards along the west coast, and a few light showers fell in Orissa and Lower Bengal, while cloud was more or less general in Bengal and in places heavy.

For some days pressure continued low in Bengal, temperature was generally high in connection with exceptionally high temperature for the season in Central India, and winds were light and irregular.

Then a rapid change occurred over Northern India. Pressure began to rise on the 6th in the extreme north-west, and extending south-eastward caused a steep gradient from north to south over the Bay on the 8th. With that arrangement of pressure northerly winds strengthened; the high temperature, which had been a marked feature in Central India and the western districts of Bengal for some days, was forced southward, and weather of a marked cold-season type became general. In some of the western districts mean temperature was 6° below the normal.

The cool weather which followed the change described above continued for about a week.

The first cold-season disturbance then commenced in the north-west, but it broke up or moved along the region of the Himalayas, and the unsettled weather was almost entirely in the northern districts.

The greater part of the rainfall in January occurred with that disturbance between the 18th and 20th. The showers were fairly general in Bihar on the 18th and 19th, and a few scattered showers fell in Chota Nagpur on the same days. Scattered rain fell in North Bengal on the 19th and 20th.

Following this disturbance the usual cold wave spread eastward over Bengal, and between the 21st and 25th fine dry cool weather prevailed. Then a series of changes began, which it is difficult to reduce to an orderly sequence of events. The low-temperature area on the 23rd included the whole of Northern India, and by the 26th high temperature was equally general, except in the Brahmaputra Valley, where it was still cool. This rapid change of temperature appears to have been due to the low pressure over the central part of the Himalayan range and the prevailing southerly winds to the south of that area.

The low pressure along the Himalayas intensified, and by the 28th defect varied from ·1 to ·15 inch. This defect almost disappeared on the 29th owing to a general rapid rise.

The changes of pressure in Bengal were, during the closing days of the month, more irregular than usual, and appear to have originated in the north rather than in the west of the Province. This becomes more probable when it is observed that rain fell in the Darjeeling hills on the 27th, 28th and 29th; then the rainfall extended to other parts of North Bengal and to part of East Bengal. Then it became general over the greater part of the Province.

Usually cold-season disturbances, which cross the Province from the west and cause cloudy rainy weather, are not accompanied by thunder. The rainfall at the end of January was caused by local thunderstorms, showing that the disturbance was of an exceptional character. The peculiarity possibly arose from the disturbance having entered Northern India from Central Asia, instead of from the usual westerly direction.

The cold wave which followed the rainfall was slow in its advance over Bengal. It was not until the 2nd of February that the high readings of 6° above the normal were replaced by low readings of 8° below the normal.

Pressure.—The most noticeable occurrence as regards the pressure distribution was the very rapid rise which spread over Northern India about the end of the first week. Previous to that rise pressure was low in Bengal, and weather was being influenced from the south-west, where north-east monsoon conditions lingered. After the change well-marked cold-season conditions became general over Bengal, followed after about a week by the first cold-season depression from the west. That depression moved eastward along the line of the Himalayas, and may have led up to the low-pressure area in the central range, which was so noticeable a feature of the later days of January. Pressure changes were more

irregular than usual during the last week, and were probably due to a depression entering Northern India from Central Asia.

On an average for the month, pressure was above the normal over both the Province and the Bay, but not by large amounts.

Temperature at times differed by rather large amounts from the normal, the extreme limits being about 6° on either side of the normal. The cool weather which accompanied any increase in the strength of the northerly winds was more permanent than the high temperatures which preceded the disturbances, and, in consequence, the mean temperature for the month is below the normal, by small amounts, over the greater part of the Province.

Defect is more than 1° in Orissa, half a degree in Assam, South-West Bengal and Bihar; in other divisions excess is very slight.

Rainfall.—Showers occurred about the end of the third week, chiefly in the northern districts, and again at the end of the month. As usual in January the fall was greatest in Bihar—about ·3 inch. In North and East Bengal about half that amount fell. The other divisions were practically rainless.

The falls were heavier in Assam, more especially in the Brahmaputra Valley. Dibrugarh received more than 2 inches and Sibsagar about 1 inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the month of January 1904:—

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye-observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⌓, dew; o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; ∠, lightning; ⚡, strong wind; ≡, fog.

* The anemograph being under repair, the movements of wind of 14th and 15th February 1904 are given from a dial anemometer from 4 P.M. of the preceding day to 4 P.M. of that day.

RULES for the award of Primary and Middle scholarships from the year 1904 onwards approved in Bengal Government, General Department, letter No. 3427 (Education), dated 17th December 1903:—

I.—LOWER PRIMARY SCHOLARSHIPS.

Unit area.—The Lower Primary Scholarships will be distributed according to *thanas*, and will be open only to pupils attending lower primary schools, provided that such schools adopt the course prescribed in Bengal Government Resolution No. 1, dated 1st January 1901.

Preliminary selection.—A preliminary selection of candidates will be made by the Sub-Inspector of Schools based on the results of his annual inspections. Such selections may, if desired, be made by the Sub-Inspectors after consultation with the Guru Instructors in charge of the schools of the *thana*. The Sub-Inspector should forward to the Deputy Inspector a list of eligible candidates from each *thana*.

Limit to selection.—The number of names in the aforesaid list should not exceed three times the number of scholarships allotted to each *thana*, and the name of not more than one candidate from each school should appear in the list.

Scrutiny.—The Deputy Inspector should scrutinise the list and, if necessery, strike out names from, or add names to, the list if he has reason to believe any injustice is being done.

Scholarship Examination.—The final selection for scholarships will be made by means of an examination of the candidates selected as above and in the books and subjects prescribed from time to time by the Director of Public Instruction. The examination will be held at the head-quarters of a *thana*, or at some convenient higher class school, and be conducted under arrangements made by the District Board or by the District Committee of Public Instruction, as the case may be. The examination will be mainly oral, and be conducted by Superintendents appointed by the District Board or its Education Committee, or by the District Committee of Public Instruction in non-Board districts. Any written papers which may be set to test candidates' hand-writing and knowledge of Arithmetic will be examined by the Superintendents or by examiners appointed by the District Board or the District Committee of Public Instruction, for each *thana*.

Marks earned by the examinees.—The marks earned by the candidates at the oral examination, and also in papers set in writing and Arithmetic, should be forwarded to the Deputy Inspectors of Schools who should submit them to the Chairman, District Board, or the Vice-President, District Committee of Public Instruction, giving his views as to the distribution of the scholarships, and any other remarks he may wish to make.

Award of scholarships.—The scholarships will be awarded by the District Board, or by the District Committee of Public Instruction, as the case may be, in consultation with the Deputy Inspector, and in accordance with the rules in force in the Department, or sanctioned from time to time by Government.

II.—UPPER PRIMARY SCHOLARSHIPS

Unit area.—The upper primary scholarships will be distributed according to subdivisions, and will be open to pupils attending (1) upper primary schools, (2) the third class of middle schools, and (3) the seventh class, section A, of high schools, provided that such schools are being taught under the Code given in Government of Bengal's Resolution No 1 of 1901.

Preliminary selection.—A preliminary selection of candidates will be made by the Deputy Inspector of Schools on the result of his annual inspections in respect of upper primary and middle schools and by the Inspector or the Assistant Inspector in respect of high schools. Such selections shall be made, if necessary, in consultation with the Head Master of the particular school. The Deputy Inspector should forward to the Inspector of Schools a list of eligible candidates from upper primary and middle schools in the subdivision. The Inspector should then prepare a combined list of candidates from upper primary, middle and high schools in each subdivision of a district.

Limit to selection —The number of names in the aforesaid list should not exceed four times the number of scholarships allotted to each subdivision and the name of not more than one candidate from each school should appear in the list. The number of names in the list prepared by the Deputy Inspector and in that made by the Inspector or the Assistant Inspector should each be double the number of scholarships allotted to each subdivision.

Scholarship Examination.—The final selection for scholarships will be made by means of an examination of the candidates selected as above, and in the books and subjects prescribed

from time to time by the Department. The examination will be held at the head-quarters of a subdivision or at some convenient higher class school and be conducted under arrangements made by the Inspector of Schools. The examination will be partly oral (in Reading, Object-lessons, Geography and Map-pointing and Mental Arithmetic) and partly written (in Vernacular Literature and Grammar, Science Reader, History, Arithmetic and Mensuration). The oral examinations will be conducted by the Superintendents appointed by the Inspector for each centre, and the written papers will be set and the answers examined by examiners appointed by the Inspector for the whole district, or, if thought desirable, by examiners appointed for the whole division.

Marks earned by the examinees.—The marks earned by the candidates at the oral examination and also in the written papers should be forwarded to the Inspector of Schools.

III.—MIDDLE SCHOLARSHIPS.

Preliminary selection.—A preliminary selection of candidates will be made by the Inspector, Assistant Inspector or Deputy Inspector of Schools on the results of his annual inspections in respect of middle schools, and by the Inspector in respect of high schools. These selections should be made, if necessary, in consultation with the Head Master of the particular school. The oral examination will be conducted by the Superintendents appointed by the Inspector for each centre, and the written papers will be set and the answers examined by examiners appointed by the Inspector for the whole district, or, if thought desirable, by examiners appointed for the whole division.

Mark gained by the examinees.—The marks earned by the candidates at the oral examination and also in the written papers should be forwarded to the Inspector of Schools.

Award of scholarships.—The scholarships will be awarded by the Inspector of Schools in accordance with the rules in force in the Department, or sanctioned from time to time by Government.

IV.—GENERAL RULES GOVERNING THE AWARD OF PRIMARY AND MIDDLE SCHOLARSHIPS.

In preparing the list of candidates for the various scholarship examinations, information should be recorded as to the circumstances of the candidates and as to their conduct, and considerable weight will be given to such considerations. Thus in the second selection made by the Deputy Inspectors for candidates for lower primary scholarships and that made by the Inspector for upper primary and middle scholarships, great weight will be given to considerations of poverty and conduct, and a poor orphan or a poor boy will be preferred to one who has parents, who are well to do or who are not actually poor.

A candidate who has once been admitted into any of these examinations shall not again be admitted into the same standard of examination.

No person directly interested in any of the candidates should take part in the examination.

Scholarships awarded under these rules shall be tenable only in schools working under the new scheme for vernacular education.

The scholarships will be liable to forfeiture for misconduct or for any unsatisfactory report regarding the progress made by their holders in their studies.

The examinations will be held in the second-half of November of each year and the award of the scholarships will be declared in December.

AUSTRALIA, SOUTH—SPENCER GULF.

Vessels beating up or down the Gulf against strong head winds are therefore cautioned to keep about the middle of the Gulf, towards the Middle Bank Lightship, which may be passed close to. They may also anchor anywhere north of Tipara Shoal and await a slant of wind.
